

PRESIDENT'S PARTY GETS STUCK IN THE MUD OF THE MUD OF RANIER

Taft Has Narrow Escape from Spending Night on the Mountain

ROADS VERY BAD

Need of Better Appropriations for the National Parks Illustrated

TACOMA, Oct. 8.—President Taft climbed up to the top of the mountain on Mount Rainier today and narrowly escaped spending a night in the mountain fastness. The Presidential party in the ascent in automobiles and when nearing the highest point reached by the road the machines became mired in mud up to the hub of the wheels. Forest rangers with teams finally cleared the way, but night had fallen and a storm threatened as the President started down the decline. With searchlights blazing the way, the President's car crept slowly along the edges of precipices and at times the outer wheels were within a foot of a sheer drop of 1,000 feet or more.

The President was the guest of the Tacoma folk on his mountain climbing tour, so he took care merely to refer to the majestic mountain as the "mountain," for Tacoma residents insist that the proper name is "Mount Tacoma."

At Seattle they showed me their Mount Rainier, now you show me your Mount Tacoma. I want to say that your mountain is just as beautiful as their mountain.

Taft thoroughly enjoyed the day's outing. Taft returned safely to his train, which had been taken to Ashford, near the mountain, and passed through here at 11:25 p. m., enroute to Bellingham. Despite the fact of the storm, the slippery mud and the danger of the night travel on the trail, the President declared that he had thoroughly enjoyed the experience of the day. Taft did not see the worst of the automobile blockade on the road, however, his car having gotten safely by on the way up the mountain before it happened and the machines having been cleared away by the rangers when he reached the bad spot on the return journey.

The President's car sank deep in the muddy ruts and skidded badly at times despite the safety chains that had been thrown over the rear tires.

PARK ROADS BAD.

The most unfortunate feature of the day was the fact that after the long journey to the mountain the President found that heavy storm clouds had settled far down the slope and the snow-capped peaks had been hidden from view. The early forenoon had been fair and as the Presidential party left Tacoma on the seventy-two miles automobile ride to the base, the mountain stood out in crystal clearness. The first sixty miles of the journey were made over country roads, which were in excellent condition. Once in the Mount Rainier national park, however, they began to get rapidly worse. They had seemed passable yesterday according to the reports of the rangers, but today after the first two or three of the machines had plowed their way through, they became quagmires.

The President was through the end of the journey as planned, however, and was said tonight to be much impressed with the necessity for additional government appropriations for road building in the national parks. The President attained the 8,000 foot level and was almost in the low hanging clouds above which the majestic peaks of the mountain towered to an altitude of more than 10,000 feet.

Governor Hays, Congressman Warburton and Humphrey, S. A. Perkins, Republican national committeeman, and a delegation from Tacoma accompanied the President.

AT FOOT OF GLACIER.

The President stopped for a long time at the foot of Nisqually glacier, where a mountain torrent rushed from beneath the ice stretching like a broad white ribbon from the clouds' peaks above, the glacier ended in a muddy looking mass, the lower end being covered with the dust and dirt of years. An occasional track, giving a glimpse of greenish white ice beneath, served to distinguish the glacier foot from what might have been considered a somewhat sudden landslide.

The President climbed next to Hickman point, where he alighted to enjoy the view. There was a thought of turning back here, but the road was too narrow and a start was made for "Camp of the Glaciers," more than three miles further on, and some 2,000 feet above.

It was toward the end of this part of the journey that the serious part of the trip occurred. Forest rangers plainly were worried when automobile after automobile stalled in the muddy going. Mountain wagons had been made ready and an effort would have been made to get the President out this way if the roads had not been cleared or the machines broken down under the strain. Four cars were left temporarily stranded in the mountains.

WILL GET THEIR PAY.

SAN FRANCISCO, Oct. 8.—Anticipation on an opinion received from City Attorney Long, Auditor T. F. Doyle decided yesterday to approve the salary warrants of 1,000 non-civil service city employees whose September pay has been held up pending the outcome of a dispute over the legality of their employment.

Insurgent Leader Decoyed Across Mexican Border; Assassinated for Reward

SAN DIEGO, Oct. 8.—Ramon Montano, who commanded a troop in the insurrection in Lower California, was this afternoon decoyed to the international boundary line where he was stabbed and rushed across it into Mexico. There, it is asserted, he was at once slain. The report was brought to this city this evening by a former member of Guerrero's band that operated in Lower California. He says that two Mexicans engaged Montano in conversation near the border and taking him off his guard, wounded him and rushed him across the border. It is said that there was a large reward for Montano because of his connection with the recent revolt.

23,000 Acres in Sutter and Yolo Counties to be Planted to Sugar Beets

(Special to the Republican.)

YUBA CITY, Cal., Oct. 8.—The announcement has been made here that extensive bonding and purchasing of farm lands in Western Sutter and Northern Yolo counties have been completed for the Alameda Sugar Company and that a sugar factory of twenty thousand tons capacity annually will be erected near Meridian. Ten thousand acres in this county and thirteen thousand in Yolo have been acquired. The total expense when the plant is ready to run will be two million and a half. A company will operate its own railroads over its plantations and will reach the markets over the Northern Electric Company's line from here to Colusa, soon to be built, will cross the river at Meridian, passing the lands of the sugar company. The company will grow sugar beets on its twenty-three thousand acres and will also buy them from farmers in several counties. A hundred and fifty thousand tons will be crushed annually. The plant will be in operation in the fall of 1913, when the transfer of the plant from Alameda county will be completed.

Husband Killed and Negro Murderer Convicted Before Wife Learns of Tragedy

SAN FRANCISCO, Oct. 8.—Charles Valgreen was murdered at Larkin, Kan., Oct. 1. A negro is now serving a life sentence for the crime.

The above telegram received today by Mrs. Charles Valgreen of 915 Van Ness avenue, this city, was the first intimation the wife had that her husband had been murdered, who left here two weeks ago to visit his parents in Sweden. The husband had been buried, the murderer tried, convicted and committed to prison or life before the wife learned of the tragedy.

A telegram announcing Valgreen's murder was sent to a business friend here at the time the crime was committed. The friend, thinking the message a practical joke, tore up the telegram and did not inform Mrs. Valgreen of her husband's death.

Man Found Dead Clutching Hidden Savings; Wife Under Suspicion of Causing End

(Special to the Republican.)

PORTLAND, Ore., Oct. 8.—Mrs. Charles Molter, widow of the man who was found dead in his home yesterday with his lifeless hands clutching a can which had contained \$200, the family savings, persists in her declaration to the police that only she and her husband knew the hiding place of the money and that the money was hidden in the kitchen floor. Mrs. Molter also maintains stoutly that the money was hidden in the can and in its hiding place when she left home yesterday and that it was empty when she returned and found her husband dead on the floor. The police confess themselves baffled by the mystery. They can divine no motive on Mrs. Molter's part for taking the money, which was already as much hers as her husband's, and yet they are convinced that no one else knew of the cache. The autopsy to determine the cause of Molter's death has not been completed. Mrs. Molter is kept under surveillance, but has not been arrested.

RODGERS DOES BETTER THAN MILE A MINUTE

Aviator is Again Stopped, near Joliet, by a High Wind.

CHICAGO, Oct. 8.—Aviator C. P. Rodgers, who is attempting to create an aerial route from New York to Los Angeles, left Hammond, Ind., twenty miles east of here, at 11:25 o'clock this morning, intending to reach Chicago in two days, and at 8:45 o'clock tonight alighted at Bruce, Ill., thirty-five miles south of here. En route he stopped at Chicago. He had planned to fly to Joliet, but darkness and a high wind forced him to stop within three miles of his goal.

The first stage of his journey was made at better than a mile a minute, the twenty-six miles from Hammond to Chicago being covered in twenty-four minutes. He left the ground here at 4:01 o'clock and started southward on the first stage of his flight toward St. Louis. He followed the wrong railroad tracks and forty-five minutes later made a landing at the Bell tracks. A few minutes later he sailed away at a good speed above the Chicago and Alton tracks.

His morning land had been lost track of and for an hour no word of him was received. Then a report was received at the Chicago and Alton office that he was on the ground at Lockport. He will continue his flight tomorrow.

DRUNKEN QUARREL ENDS IN FATALITY

SAN DIEGO, Oct. 8.—During a drunken quarrel between two Mexicans, Angelo Ramirez, aged 22 years, and Susana Garcia, 18, the former was stabbed through the heart with an arrow stick this afternoon and died almost instantly. The two had been celebrating all the previous night in a house on Arctic street. This afternoon Ramirez borrowed fifty cents from a neighbor and went out to procure more liquor for himself and Garcia. He returned with neither money nor liquor and then the fatal quarrel began. Garcia gave herself up to the police. He claims self defense. An open pocket knife was found near the dead man's right hand.

U. S. GEOLOGIST DIES.

WASHINGTON, Oct. 8.—Dr. C. Willard Hays, chief geologist of the geological survey, and for twenty-four years identified with that service has resigned to enter mining in Mexico.

PETER C. ROSSI, SWISS-ITALIAN, IS KILLED BY A FALL

SANTA ROSA, Cal., Oct. 8.—Peter C. Rossi of San Francisco, president of the Italian-Swiss Colony Wineries Company, and a director of the Italian-American Bank of that city, died today, several hours after having been thrown from a buggy.

Rossi was attempting to alight from the vehicle when the horse started, throwing him to the pavement. He struck head foremost and the curb and sustained a fractured skull. Rossi was 64 years of age.

Rossi went to San Francisco from Italy 30 years ago and engaged in the drug business. Later he interested himself in the Italian-Swiss Colony Company and in banking. He was one of the wealthiest members of the San Francisco Italian colony. He is survived by a widow and six children.

BOAST MEN ARE WEARY OF STRIKE

Railway Officials Hope for Their Speedy Return to Work.

CHICAGO, Oct. 8.—There were no disturbances here today in the strike of shop workers on the Illinois Central and other Harriman railroads, according to the announcement of officials tonight. They asserted that the men were becoming dissatisfied with the way the strike was being conducted and that many of the local unions are demanding that it be ended.

Union leaders, however, maintained they were satisfied with the progress of the strike, and were prepared to remain out as long as necessary. Vice President W. L. Park of the Illinois Central issued the following statement during the day:

"The men are unreasonably dissatisfied with the way the strike was called and its progress. The leaders attempted to put something over on them and it will not go."

The holdovers in one of the western towns held a meeting Saturday and practically decided to return to work. Some of the machinists' union are demanding a strike by calling off the dogs. The machinists of Paducah have sent a telegram to President James O'Connell of their International organization protesting against the strike and declaring they never had an opportunity to vote on the question of leaving members of the system.

"Over 75 per cent of the membership of the local union signed the petition."

"Train movements continue satisfactory and on the lines west of Chicago the strike is not a factor at all."

Officials of the Harriman roads asserted that the men are returning to work in many of the western cities.

TWO CHILDREN DIE IN ENSENADA FIRE

Soldiers Tear Down Buildings in Path of the Flames

SAN DIEGO, Oct. 8.—A fire in which two little children lost their lives threatened for a time the lives of the residents of Ensenada, Lower California. Last night, the town being saved only by the soldiers under General Gordilla. There being no fire apparatus to fight the flames, the soldiers tore down buildings that were in the path of the flames, including four wooden barracks. The fire was thus confined to a dwelling occupied by Mexican women, wives and children of soldiers, and to a Chinese house adjoining. The two babies that perished were the children of soldiers of the Mexican infantry. The fire loss is about \$15,000.

HIGHWAYMEN CAUGHT BY POLICE IN AUTO

Had Robbed a Portland Merchant of \$400 in Gold at San Francisco.

SAN FRANCISCO, Oct. 8.—After an exciting chase of four blocks in an automobile, during which several shots were fired, Frank Dougherty and Martin Flynn, highwaymen, were captured by the police early today after they had robbed Conrad Messner, a Portland merchant, of \$400 in gold.

TWO BOYS DROWN IN SAN FRANCISCO BAY

SAN FRANCISCO, Oct. 8.—Michael and Frank Meade, aged twelve and ten years, respectively, were drowned in San Francisco Bay today in the presence of several companions.

The boys had been fishing from a pier, driven when the younger one tripped and fell into the bay, dragging his brother with him. Chained in each other's arms, the boys sank from view with their companions powerless to render assistance. The bodies were recovered.

BOHNETT DECLARES JUSTICE COURT AMENDMENT SHOULD PASS

Legislative Action Will Be Necessary to Carry it Into Effect.

SACRAMENTO, Oct. 8.—Denying an eleventh hour election report that he has advised the defeat of constitutional amendment No. 26 relative to the creation of a justice of the peace court, Assemblyman L. B. Bohnett, author of the measure, tonight said the following dispatch to the Sacramento Union: "Report that I have expressed doubt as to the effect of the constitutional amendment No. 26, No. 18 on the ballot is incorrect. I am firm in my belief that the office of justice of the peace will not be abolished by the adoption of the amendment. The courts may be called upon to construe the amendment if adopted and those who think that this is sufficient reason for its defeat should vote against it."

WOMEN LEADERS ARE CONFIDENT THEY HAVE WON THE BALLOT

"But in my opinion, there is no doubt that the courts will have to construe the amendment as intended by the legislature, namely, to give to the legislature greater power in establishing inferior courts and to give it power to substitute another court for that of justice of the peace. The present justice court would not exist except for certain code provisions."

"These code provisions are not repealed by the amendment and in my opinion will continue in full force if the amendment is adopted and will remain in effect until the legislature shall decide otherwise."

SAN FRANCISCO, Oct. 8.—Women suffrage would seem here to be the paramount issue of the election to be held throughout California next Tuesday when twenty-three proposed amendments to the state constitution will be voted upon. The initiative and referendum are the chief subjects of the campaign of Governor Johnson, apparently have been relegated to secondary proportions by the strenuous efforts of suffrage.

The whirling campaign just closed which brought suffrage to the fore at the election next Tuesday, despite the fact that the suffrage movement had worked day and night, hundreds of automobiles were in service in this city and day and night street meetings were held with public speakers.

Suffrage leaders were jubilant tonight and extremely optimistic. Their only fear is of the silent vote, they say.

San Francisco, Oct. 8.—The most contradictory reports are being received here regarding the situation in the north. The monarchists, however, do not appear to be making much headway against the republic.

ROYALISTS FAIL TO WIN PORTUGAL

Appear to Be Making No Headway Against Republic.

LISBON, Oct. 8.—The most contradictory reports are being received here regarding the situation in the north. The monarchists, however, do not appear to be making much headway against the republic.

CENSORSHIP DENIED

PARIS, Oct. 8.—The Portuguese premier, Joao Chagas, has notified the Portuguese legation here that the government has taken all necessary steps to repress the royalist rising in the north, and that "tranquillity reigns throughout the country."

ONE OR TWO TRIALS?

It will be officially stated whether the defense prefers that the brothers shall be tried separately or together. The defense already has announced that it prefers separate trials, the announced having been followed by the attorney, John D. Fredericks, district attorney, that if the defense made that move he would, in accordance with the rights of the prosecution, to decide which shall answer the charge first, try John J. Namura before January 18, because it usually takes the easiest case first, he said.

PEACE PROPOSALS

ROME, Via Frontiera, Oct. 8.—The Italian authorities at Tripoli today issued a proclamation suppressing slavery. Tripoli was the only remaining country on the coast of Africa where slavery prevailed, although Great Britain and France had attempted to stop the traffic.

General Spingardi, minister of war, went to Naples today to supervise the organization of the troops for the expedition.

Advices from Tripoli say groups of Turkish soldiers are working in to surrender. The Arabs, armed at the last moment by the garrison with Mauser rifles landed by the steamer Derna, are gradually returning to Tripoli and offering their submission. The only condition is that the Italian commander purchase their rifles for a few francs, which seems to show that not only are the Arabs—at least those in the vicinity of Tripoli—not ready to fight for Turkey, but also that starvation prevails among the natives. It is believed that the supplies of the Turkish soldiers comprising the garrison are low.

It is possible, however, that the Turks may go into the interior for the purpose of arousing the Senoussi tribes, and have a proclamation a holy war against the invaders.

The attitude of the Turkish government regarding the Italians in the Ottoman empire is viewed with some concern and the threat of expulsion and the abolition of certain rights if carried into effect, may be the cause of serious complications. It is said that Germany, which has now the Italians in Turkey under its protection, would raise an objection to such action.

Various reports are being received of anti-Italian riots, particularly in London, where the Italian consul is said to have been threatened with a revolution in his own house. Vice Admiral, the Italian naval officer, left Tripoli today aboard the armored cruiser Victorio Paoli, after having been in command on the king and minister of marine.

PEACE EFFORTS.

LONDON, Oct. 8.—Most of the war correspondents are of the opinion that Turkey is renouncing her claims to peace, but they differ as to the procedure to be followed—whether by arbitration through a European conference or by other means.

According to reports from Rome, Italy, though at one time ready to pay Turkey a large compensation, now will pay nothing, but the Italian government would not impose a war indemnity. Peace would be concluded forthwith, if hostilities are prolonged, however, the reports say, Italy will insist upon a heavy indemnity.

Italian reports tell of the sinking of two Turkish torpedo boats with a loss of 500 Turks, of San Giovanni di Medua. The Turkish versions minimize the affair.

TO BLOCK DARDANELLES?

The "Chronicle" Constantinople correspondent says there is great activity on the part of the Italian warships in the Turkish archipelago and in the Ionian and Red Seas. He believed their intention is to block the Dardanelles.

Reports are current that Said Pasha will resign and Kiamil Pasha become grand vizier. There is every indication that the Turkish dominions of an energetic spirit in favor of a Holy war, but in Constantinople the people pray constantly for peace.

According to the correspondent, the American ambassador, W. W. Rockwell, has been following an astonishing course to use his influence for peace. Ambassador will have an interview tomorrow with Said Pasha. Russia is joining with the United States in this action.

They have sent another note to the powers, asking for intervention and offering to grant every reasonable concession to Italy.

TEBRUK SEIZED.

ROME, Oct. 8.—Official dispatches received today say: "Early this morning the ships of the first Italian squadron entered the port of Tebruk, in Bomba Bay, where they found no Turkish warships. They summoned the garrison to surrender, but the Turks replied with a flat refusal and hoisted the Turkish flag."

The battleship "Albatross" Eleanore opened fire. The first shots carried away the flag and made a large breach in the fort. Rear Admiral Aubrey, commander in chief of the fleet, then and his staff landed on the shore, who, after a short struggle, overcame the resistance of the small Turkish force. The Italians occupied the fort and hoisted their flag. A few Turkish soldiers that refused to surrender were made prisoners."

TURKEY MUST TREAT.

CONSTANTINOPLE, Oct. 8.—The chauvinist press still demands severe anti-Italian measures, but the moderate press and the public realize that the only possible course is to end the war without delay. It is understood that the grand vizier and the minister of war are inviting mediation by the powers to secure the completion of peace, and that meanwhile the execution of the decree of expulsion relating to the Italians will be suspended.

NOTICES OF CONFISCATION.

WASHINGTON, Oct. 8.—Advices to the State Department today from the embassy at Rome express the belief that if the Ottoman government accedes to the ultimatum of the powers, the status quo existing in Turkey, the Italian government will be required to accept it.

(Continued on Page 4)

DEPUTY SHERIFFS ATTEMPT TO STOP SUNDAY AVIATION

NEW YORK, Oct. 8.—Three Long Island deputy sheriffs undertook to prevent the flight of a Sunday plane by preventing Earl L. Livingston and Miss Gladys Molsant, aviators, from making flights at Nassau boulevard today. The result was interesting.

Although the official meat of the Aero Club had been declared off, following a decision by the Supreme Court that prohibiting Sunday flights was a violation of the law, Livingston and Miss Molsant desired to make flights on their own account.

Miss Molsant flew from the Nassau boulevard field to her hangar at Mineola and Livingston started on his proposed flight to the Pacific Coast with a package of letters, having been detained by Postmaster General Hitchcock as the first transcontinental mail carrier.

Miss Molsant landed on the property of her brother, Alfred Molsant, and immediately told of deputy sheriffs' trial to arrest her.

Miss Molsant's brother said his sister had entered her automobile just after alighting from her airplane and that the deputies attacked her chauffeur and severely clubbed him when he refused to allow them to take the woman from the automobile.

In the fracas Miss Molsant had her wrist cut and was much bruised and shaken up. The deputies had no warrant to make an arrest.

Livingston was forced to come down near Belmont Park when his monoplane was forced to land. The plane had lost track of him, and he occupied the embarrassment which befell Miss Molsant.

M'NAMARA VENIREMEN TO BE EXAMINED TODAY

Judge Bordwell Preparing for Formal Opening on Wednesday

LOS ANGELES, Oct. 8.—With the preliminary examination of 125 veniremen by Judge Walter Bordwell of the Superior court tomorrow, the trial of the alleged dynamite conspirators, John J. and James B. McNamara, will be practically, although not officially, begun.

The beginning of the trial was set for October 11th, but Judge Bordwell, in order to facilitate the work of opposing attorneys, ordered that 125 veniremen report to him tomorrow so that he may excuse all who have ordinary routine business engagements. That will leave for the examination of the attorneys Wednesday only those who may prove acceptable or who may be excused, "for cause."

It will not be until the veniremen report to court tomorrow morning that their names will be made public as for obvious reasons Judge Bordwell ordered that details of the special venire be kept secret from all except officers of the court and the deputy sheriffs who served the summonses.

With the reporting of the veniremen, the first use of the court room, especially prepared for the case in the new county hall of records will be made. All fixtures are in place, telegraph wires for news service have been laid, and the sections of seats for press representatives and the general public have been allotted.

PREPARE TO KEEP ORDER

Sheriff Hammel and Chief of Police Sebastian have called upon the veniremen to report during the trial. Neither expects any trouble but have prepared for any emergency. Chief Sebastian has assigned ten plain clothes men to duty in the courtroom and Sheriff Hammel has arranged an outfit for an adequate force of deputies to attend the trial but has ordered that 30 or 40 constantly be ready to respond to call should any disturbance be caused either in court or while the accused brothers are being taken to and from the courtroom by the county jail.

According to present plans, the prisoners will be taken to court along the same passages used by the general public but it may be decided later to have them enter the scene of the trial over a back bridge which connects Judge Bordwell's chambers with another wing of the hall of records, thus avoiding conducting them through an indiscriminate crowd of court room spectators.

Whether the prisoners will appear in court tomorrow has not been decided, as it is not the official beginning of the trial, but they will be there Wednesday morning when their case is called. It will be then that Judge Bordwell probably will finally announce the order of the application of the attorneys for the defense for a change of jurists at hear the case, thus officially asserting what he has already declared in chambers—that he is not prejudiced, as alleged by the accused men's lawyers.

It will be Wednesday also when it will be officially stated whether the defense prefers that the brothers shall be tried separately or together. The defense already has announced that it prefers separate trials, the announced having been followed by the attorney, John D. Fredericks, district attorney, that if the defense made that move he would, in accordance with the rights of the prosecution, to decide which shall answer the charge first, try John J. Namura before January 18, because it usually takes the easiest case first, he said.

In that connection, a friendly clash occurred between Fredericks and Lo-comple Davis, one of the attorneys for the defense, when the latter served notices regarding legal moves in the case upon the former.

"Are you going to sever?" asked Fredericks.

"Surely," said Davis.

"Now look me in the eye," said Fredericks jeeringly, "and tell me that."

"What do you mean by sever?" "I'll bet it's a lie," joked Fredericks. "I'll bet there's a lot more truth in it than your statement that you intend to try John J. first," responded Davis in the same spirit. "Look me in the eye and tell me that."

"I intend to try John J. first," declared Fredericks.

ITALY SUPPRESSES SLAVE TRAFFIC IN NORTH AFRICA

Tripoli Last Part of Dark Continent to Tolerate Bondage.

ROME, Via Frontiera, Oct. 8.—The Italian authorities at Tripoli today issued a proclamation suppressing slavery. Tripoli was the only remaining country on the coast of Africa where slavery prevailed, although Great Britain and France had attempted to stop the traffic.

PEACE PROPOSALS

Italy May Soon Demand War Indemnity From Turkey

ROME, Via Frontiera, Oct. 8.—The Italian authorities at Tripoli today issued a proclamation suppressing slavery. Tripoli was the only remaining country on the coast of Africa where slavery prevailed, although Great Britain and France had attempted to stop the traffic.

General Spingardi, minister of war, went to Naples today to supervise the organization of the troops for the expedition.

Advices from Tripoli say groups of Turkish soldiers are working in to surrender. The Arabs, armed at the last moment by the garrison with Mauser rifles landed by the steamer Derna, are gradually returning to Tripoli and offering their submission. The only condition is that the Italian commander purchase their rifles for a few francs, which seems to show that not only are the Arabs—at least those in the vicinity of Tripoli—not ready to fight for Turkey, but also that starvation prevails among the natives. It is believed that the supplies of the Turkish soldiers comprising the garrison are low.

It is possible, however, that the Turks may go into the interior for the purpose of arousing the Senoussi tribes, and have a proclamation a holy war against the invaders.

The attitude of the Turkish government regarding the Italians in the Ottoman empire is viewed with some concern and the threat of expulsion and the abolition of certain rights if carried into effect, may be the cause of serious complications. It is said that Germany, which has now the Italians in Turkey under its protection, would raise an objection to such action.

Various reports are being received of anti-Italian riots, particularly in London, where the Italian consul is said to have been threatened with a revolution in his own house. Vice Admiral, the Italian naval officer, left Tripoli today aboard the armored cruiser Victorio Paoli, after having been in command on the king and minister of marine.

PEACE EFFORTS.

BALFOUR COMES OUT FOR TARIFF LEAGUE

Opposes Free Trade and Expresses Admiration for Canada.

HARRINGTON, Scotland, October 5.—A. J. Balfour, first lord of the treasury, has taken the line of opposition to what may be termed the second act of "the revolution" before an immense meeting of the Unionists yesterday afternoon. Strong opposition to his leadership, which was kindled by his advice to the lords to accept the veto, has been particularly marked in the case of the tariff reform issue, and his announcement on this point was important. He came out strongly for imperial preference.

"I hope," said Balfour, "that our people will find the spirit in which we must approach this question in the broad decision reached by the Canadian people.

"Our colonies are not believers in the system spoken of as free trade. Unless this committee meets the situation, we will have Canada, Australia, New Zealand and other great communities with their separate commercial tariffs with other countries. This country will awake some morning to find that these great communities, loyal as they are, have instituted a system of tariffs in which we find ourselves at a disadvantage. Such a state of affairs must have a fatal effect on the unity of the British empire."

NORMAL WEATHER IS PREDICTED THIS WEEK

WASHINGTON, Oct. 8.—Normal weather conditions generally throughout the country are predicted by William L. Moore, chief of the United States weather bureau. In the weather bulletin, he says:

"Indications are that the unusual atmospheric activity in the United States, which prevailed in the last two weeks, will be succeeded this week by a natural progression of light and low pressure across the country. The disturbances probably will move in the high latitudes and hence the rainfall will be generally light, except in the Pacific states, where rains will be frequent."

WOMAN FATALLY STABBED BY INSANE MEXICAN.

SAN FRANCISCO, Oct. 8.—Mrs. Ynez Surez, a Mexican woman, was attacked and fatally stabbed today by Elan Martinez, a cook, who told the police that he was her brother. The man is believed to be insane.

Martinez first assaulted Emanuel Cruz, Mrs. Surez's brother, who had refused him money. Cruz went for the police and on his return he found the woman on the floor with three knife wounds in her body. In an anteroom statement, Mrs. Surez said she had never seen Martinez before. The murder came here recently from Alaska.

MONTANA JOURNALIST DIES.

SAN DIEGO, Oct. 8.—John H. Reed, former editor of the Butte Inter Mountain, died in this city of acute gastritis. He had resided in San Diego during the past three years. He was Montana's commissioner at the St. Louis exposition.

LAUNCH RUSSIAN DREADNAUGHT

ST. PETERSBURG, Oct. 8.—The battleship Gangut, the fourth so-called dreadnaught class of warships for the Russian navy, was launched today. With the Sevastopol, Potemkin and Petrovskiy, the Gangut will form the first squadron of the new Baltic fleet.

NO REASON FOR DOUBT

A Statement of Facts Backed by a Strong Guarantee

We guarantee complete relief to all sufferers from constipation, or, in every case where we fail, we will supply the medicine free.

Realax Pills are a gentle, effective, dependable, and safe bowel regulator, strengthening, and tonic. They aim to reestablish nature's functions in a quiet, easy way. They do not cause inconvenience, griping, or nausea. They are so pleasant to take and work so quickly that they may be taken by any one at any time. They thoroughly tone up the whole system to healthy activity.

Realax Orderlies are unsurpassable and ideal for the use of children, the feeble, and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. Three sizes, 10c, 25c, and 50c. Remember, you can obtain Realax Remedies in this community only at our store. The Realax Store, Monroe Drug Co., Mariposa and J Sts.

MAKES RAPID HEADWAY

Add This Fact to Your Store of Knowledge.

Kidney disease advances so rapidly that many a person is firmly in its grasp before aware of its progress. Prompt attention should be given the slightest symptoms of kidney disorder. If there is a dull pain in the back, headaches, dizzy spells, or a tired, worn-out feeling, or if the urine is dark, foul smelling, irregular and attended with pain, procure a good kidney remedy at once.

Your townspeople recommend Doan's Kidney Pills. Read the statement of this Fresno citizen:

Mrs. J. B. McGlance, Mariposa and P streets, Fresno, Cal., says: "Doan's Kidney Pills were used by a member of my family and they brought relief from backache and kidney complaint after other remedies had been tried without success. Our supply of Doan's Kidney Pills was procured from the Byker & Colson Drug Co. and in view of our satisfactory experience, we are glad to recommend them."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States. Remember, the name—Doan's—and take no other.

ITALY SUPPRESSES THE SLAVE TRAFFIC

(Continued from Page 1)
desires of bringing about peace at the earliest possible moment.

The efforts of Germany to effect a settlement continue unabated, according to the dispatch. The news of the occupation of Tripoli was confirmed, and it was said that the Italian government had been landed without serious opposition. The Turkish troops withdrew into the hinterland.

The text of the notes issued by the Turkish and Italian governments declaring that merchant vessels of the two hostile nations shall be seized and confiscated, were received.

Turkey took the initiative in this direction. The Turkish note, sent by Ambassador Rockhill at Constantinople, reads:

"The Imperial government has decided that in conformity with the principles of international law Italian merchant vessels which shall be seized by its agents in Ottoman territorial waters, or on the high seas, shall be confiscated with the Italian merchandise forming part of their cargo. As to neutral merchandise, it shall not be liable to confiscation unless it shall come within the category of articles of contraband of war."

CONTRABAND ARTICLES.

The charge d'affaires at Rome communicates the notice issued by the Italian minister of marine as follows:

"No action having been taken on the part of Turkey to indicate that the Porte intends to exempt merchant vessels of Italy from seizure or capture in the course of the present hostilities, and inasmuch as the Ottoman government has taken the initiative in seizing merchant vessels under the Italian flag, the Italian government in exercise of authority conferred by article 211 of the merchant shipping convention of 1864, has decided to capture merchant vessels of Turkey. The following articles are declared contraband of war:

"Fire arms of every description, including guns, rifles, carbines and revolvers, shrapnel, all kinds of ammunition and war material, and in general everything that can serve for military or naval armament."

NATIVES WILL RESIST

MALTA, Oct. 8.—Professor Arbuthnot, chief of the Austrian scientific mission, who has arrived here from Tripoli, says the town is now tranquil. Europeans are not endangered and only one thousand Turkish soldiers are in the hinterland. Arabs, he says, are already organizing guerrilla bands and intend to put up a long resistance.

Professor Arbuthnot expressed the opinion that Italy was in contact with the occupation of Tripoli her mission might be considered ended, but she intended to embark upon a campaign in the hinterland it will take years to subdue the natives.

ST. PETERSBURG, Oct. 8.—Russia is negotiating with Turkey regarding reported intention of Turkey to declare grain contraband of war. Such action by Turkey would particularly affect the Russian export trade.

(CORINTH), Oct. 8.—The Corinth Canal, which has been closed for several months by both Turkish and Italian vessels during the war, this canal connects the Gulf of Corinth with the Aegean sea.

REPORT OF SIX KILLED IN WRECK

BUCKLIN, Mo., Oct. 8.—A Burlington freight was wrecked half a mile east of Fargo, Mason county, tonight. Six boys of New Columbia and Lewis, Mo., are reported to have been killed.

The breaking of a draw bar flung nine cars of cattle and horses into the ditch. Floyd Summers of New Columbia, is known to be dead.

WOMAN IS KILLED IN COLLISION WITH TRAIN

SAN RAFAEL, Oct. 8.—Mrs. Charles Bassart of this city is dead, and her husband probably fatally injured as a result of a collision between Bassart's automobile and a Northwestern Pacific electric train here today.

The automobile was hurled fifty feet, pinning Bassart to a trestle, while Mrs. Bassart was dashed to the creek below. The woman lived but a short time after being removed to a hospital. Bassart has several severe fractures of the right arm and leg. Failure on the part of Bassart to notice the approaching train is believed to be responsible for the accident.

Bassart is a member of a local contracting firm.

BAXTER SAVES HIS BOY

On June 1, 1910, Geo. W. Baxter, an auctioneer, Troy, Pa., wrote that his 12-year-old boy had chronic Bright's Disease. His doctor told him there was no cure for it and that any claims to the contrary were simply schemes. He said he was almost crazy over the boy's condition and wanted us to tell him what to do.

We wrote that notwithstanding the statements of all the textbooks in the country, recoveries were constantly being had in chronic Bright's Disease. In view of the hopeless attitude of the physicians, there was nothing to do but put the boy on Fulton's Renal Compound, which he did, getting it from Druggist Barker in Canby, N. Y.

In February he reported thirty bottles used and case progressing finely. We have now a letter dated September, 1911, in which he asks for a tonic for the lad, and closes as follows: "I wish to ask if you think it advisable to keep on giving it to him when there is no ailment? His color and strength seem better than for the past two years. I wish to thank you most kindly. I wish you would of success."

Where would that boy be now if the doctor's predictions had succeeded in keeping him off this treatment? Fulton's Renal Compound is carrying him into thousands of homes stricken with kidney diseases, and, flying full in the face of all the textbooks of Christendom, we declare Bright's and chronic kidney disease now curable in a majority of cases. The hard task we have is to convince physicians who to the fact that their textbooks have taught them that recovery is impossible. Patterson Block Pharmacy, Agents.

WIFE RESENTS POKER; HUSBAND IS SHOT

SAN FRANCISCO, Oct. 8.—When C. G. Barnett attempted to leave his home last night to join in a "friendly game of poker," his wife objected and a struggle occurred in which he was shot in the face. His wound is not serious.

Husband and wife insisted that the shooting was accidental. The police arrested Mrs. Barnett and charged her with assault.

FATALITY POSSIBLE FROM STREET CAR COLLISION

SAN FRANCISCO, Oct. 8.—Seven persons were injured late today when a freight street car collided with an automobile. David Davis of Burlingame sustained a fractured skull and may die. Mrs. Davis was internally injured. The injuries of the others are not serious.

The accident was caused by the unskillful driving of a motor car and crashing into the street car.

THREE KILLED UNDER A COLLAPSED WALL

CHICAGO, Oct. 8.—Two children, a girl 12 years old and a boy 8, were killed and eight men were seriously hurt today when the front wall of a new three-story brick building on the North Side collapsed burying them under the debris.

ELIOT TO TOUR ORIENT.

CAMBRIDGE, Oct. 8.—Dr. Charles W. Eliot, president of Harvard University, is to make a tour of the world, leaving the United States on November 7th. He will be gone about eight months, a large part of his time being devoted to Japan, China and India.

BOOM IN MOONSHINING.

Illicit Distilling is on the Increase All Over the Country.

"Moonshining"—the act of manufacturing distilled liquors in violation of the internal revenue law—is on the increase all over the country, according to experts in the Treasury Department. Of course, the department never concerns itself with questions of public policy, and consequently it has nothing to say or do about the increase or decrease of prohibition throughout the United States. Nevertheless, the work of the bureau of internal revenue is immediately concerned with this question of public policy, because it has been found that the revenue lost by the sale of "moonshine" is also the greatest possible incentive for violations of the internal revenue laws by "moonshiners."

It will be some weeks yet before the report of the work of internal revenue agents with respect to the enforcement of the laws against "moonshining" will be completed for the last fiscal year, but enough is known to warrant the statement that there has not only been a great increase, but a great spread of that industry in the last fiscal year. For instance, in the state of North Carolina, "moonshining" used to exist almost exclusively in the mountain regions. Today, the state is honeycombed with illicit stills. The greatest increase in this illegal business in recent years has been noted in Georgia, Alabama, North Carolina, South Carolina, Virginia, West Virginia and Tennessee. While the internal revenue officers have been constantly raiding the districts where the illicit industry has been known to exist for a century or more, a backfire has sprung up in the settled districts of these states, which has necessitated an increase in the force of inspectors and agents, and great diligence and energy all along the line.

Furthermore, the "moonshining" industry has begun to invade the North, and particularly some of the larger cities of the North, where the possibility of hiding is excellent. About a year ago the internal revenue agents discovered one of the biggest illicit distilleries in the history of the service in the heart of the Berkshires in Massachusetts. In an old abandoned hotel a manufacturing establishment was set up, ostensibly for the purpose of producing maple syrup. As a matter of fact, the product was sugar candy, which cost about 35 or 40 cents a gallon to produce, and which brings in an income of about \$150 a gallon when sold. This still was doing a wholesale business when interrupted. —Washington Correspondence New York Post.

GOLD AND INDIAN BRIDE

Pool "News Butcher" Finds Wealth and Romance in Alaska.

With a story as startling as true, and with a hint of Indian blood, George Hunt arrived at the Van Ness from Fairbanks, Alaska. The very first thing he took Mrs. Hunt on an automobile ride, her first experience in motor locomotion. Mrs. Hunt is a daughter of Chief Peter Askeloff. She declined the title "the chief's daughter" or "the chief's wife" too much. The bride also disapproves of American titles.

The story of the strangely assorted couple reads better than fiction. Hunt left New York several years ago as a "news butcher" and heard of Alaskan gold and spent fortunes. He reached Fairbanks at the time of the ill-fated stampedes. Into these he plunged, became lost, and might have perished had he not stumbled across the camp of Indians. The daughter of the old chief took a liking to Hunt.

He was shown places where gold was to be found and uncovered valuable claims on the McKean river, that brought him \$100,000. These claims he still holds.

When Hunt married the chief's daughter the ceremony was performed by one of the tribal priests with fantastic rites. —Los Angeles dispatch to New York Herald.

BALLADE OF A WELCOME SOUND

"The line is busy." One could write As many humorists have writ, About the anger that must smite But I shall be a little bit Original, although I'm ditty "The while I do this little skit— 'The Line is Busy.'"

I sing the joy, the sudden light That shines on them who sadly sit Calling on creditors, tonight. When creditors their stools have quit.

It took an awful lot of grit To call him—but he ain't there, is he? We've tried it, though, in peace we sit— The line is busy!

I sing his joy whom friends invite To sit at table with wine and wit. He who must give his wife some trite Excuse therefore—the hypocrite! He knows that she will throw a fit Suspecting bottles, froze and fix: "Glad her his wit be need not sit— The line is busy!"

Queen of the whirling wires, your wit! I love you, Louie, is it Lizzie? With me your bromide makes a hit— "The line is busy!"

—Ted Robinson, in the Cleveland Plain Dealer.

DEMANDS APOLOGY FROM COLOMBIANS

LIMA, Peru, Oct. 8.—The foreign minister has sent a message to the Peruvian minister at Bogota to present an energetic note of protest to the Colombian government because of the recent attack on the Peruvian legation at Bogota. The minister has been instructed to demand full satisfaction.

The attack on the Peruvian legation occurred Thursday night, when a Colombian mob stoned the building and tore down the coat of arms. This was the second attack on the legation in the last few months and was due to ill feeling over the alleged encroachment of Peru upon Colombian territory.

DEMAND DISMISSAL OF INDIAN OFFICIAL

WASHINGTON, Oct. 8.—The immediate dismissal from the government service of Superintendent James B. Alexander of the Pima Indian agency near Phoenix, Ariz., has been asked of Secretary of the Interior Fisher by the Indian rights association.

Superintendent Alexander, a year ago, was charged with falsifying accounts. After an investigation he was recommended for dismissal. Later a board of review recommended that he be permitted to resign with a severe reprimand. Protests were made by the association against both of these findings.

Commissioner of Indian Affairs Valentine wrote to Secretary Fisher and asked for the dismissal of Alexander and six of his subordinates and recommended that steps be taken toward criminal prosecution. Final action has not been taken in the matter.

A ROORBACK

Discussing Amendment No. 18, regarding justice courts, the Republican printed Saturday morning an opinion from Assemblyman L. D. Bohnett, of San Jose, author of the amendment, in which he demolished the legal argument made against it by the embattled justices. The same day the Fresno Justices, and evidently all the justices in California, received telegrams signed C. A. Thompson, Chairman Justices' Association of Santa Clara County, quoting Mr. Bohnett to exactly the contrary effect. As the Republican's statement was received from Mr. Bohnett himself and was printed verbatim from his own copy, written with his own hands, we hesitated to credit without verification a contrary statement attributed to him the very next day. Being unable to reach Mr. Bohnett Saturday night, the Republican wired the San Jose Mercury, asking it to get a statement from him, and to put it, if possible, on the Associated Press wire. No direct reply was received that night from the Mercury, but a statement came later, over the press wire, quoting Mr. Bohnett both ways. With a statement directly from the author of the amendment, to one effect, and two statements, attributed second-hand to him, one to the contrary effect, and the other to both effects, the information was in too confused a condition to use. Yesterday the Republican got into direct communication with Mr. Bohnett, and received a statement confirming his original statement. All the "documents" in evidence, except the original legal argument, given Saturday, are printed herewith.

The dispatch sent out by the Santa Clara Justice is as follows:

"San Jose, Cal., Oct. 7, 11.
"Justice of the Peace,
"Fresno.
"Assemblyman L. D. Bohnett, author of assembly amendment No. 28, No. 18 on the ballot, says:
"There are a great many legal opinions that the enactment of amendment No. 28 would immediately do away with all justice courts and leave civil and criminal actions to state courts. There are some opinions to the contrary. In any event its passage is bound to cause litigation and expense for the litigants and justice courts, and in the face of a supreme court decision, which might be adverse to it, I advise people who wish to avoid this to vote against it. Any good which might be accomplished by its passage could, by a short delay, be obtained by a similar amendment which could be drawn up so as to leave no doubt as to its purpose."
"Get in newspaper."

"C. A. THOMPSON,
"Chairman Justice Ass'n of Santa Clara County."

The Associated Press dispatch, sent out in response to the Republican's query, was as follows:

"SAN JOSE, Oct. 7.—A feature of the campaign was the statement that Assemblyman L. D. Bohnett had abandoned the 18th amendment in the ballot, proposing to withdraw township justices from the judicial system of the state. Bohnett introduced the amendment in the legislature. He said tonight he has not been urging the amendment strongly because of the legal question which has arisen regarding its effect on civil cases, but that he still favors it as much as when he introduced it."

Finally, Mr. Bohnett's own statement, written by himself, is as follows:

"SAN JOSE, Cal., Oct. 8.—Reports that I have expressed doubts as to the effect of assembly constitutional amendment No. 28 on the ballot are incorrect. I am firm in my belief that its adoption will not abolish the office of justice of the peace without further action by the legislature. The courts may be called upon to construe the amendment if adopted, and those who think this sufficient cause to defeat the amendment may vote against it. But there is no doubt in my mind that it must be construed as the legislature intended it, to give the legislature greater power in establishing inferior courts and to permit it to substitute some other court for that of the justice of the peace. The present court would not exist without certain code provisions. These code provisions will not be repealed by the adoption of the amendment and will continue in full force until the legislature acts or repeals them. Justices of the peace are fully protected by these provisions and they will continue to preside over the inferior courts until the legislature decides otherwise."
"L. D. BOHNETT."

Whether assembly amendment 28 passes this year, or some other year, is not a year-shaking matter. We have endured the fee system and other incongruities in the justice courts a long time, and we can endure them two or four years longer. But it is important that an amendment shall not be defeated by an organized eleventh-hour roorback, promoted by a special interest concerned to defeat it. If the amendment had really been "repudiated" by its author, that fact, if generally known, would naturally defeat it. Money and work is being spent to get before the people of the state an allegation that this is the case.

The only foundation of the roorback seems to be that in a debate on the amendments with Assemblyman Brown, of San Mateo, Mr. Bohnett, replying to an objection to this amendment, said that it was true that some lawyers agreed with Brown's objection, and might take the question to the courts. If there were any who regarded this possibility as an objection, naturally they should vote against the amendment. But there were many more lawyers who agreed with the opinion that the amendment presented no legal risks, and Bohnett himself was entirely confident that the courts would sustain this view. Being one of the minor amendments, he had not been making any particular campaign in regard to it. A distortion of this entirely proper and innocent statement

provides the little truth there is in the dispatches misrepresenting Mr. Bohnett's views.
The Republican, like Mr. Bohnett himself, has not taken much interest in this amendment, simply because it is one of the lesser matters on a ballot containing so many much more important things. But now that its defeat has been sought by eleventh-hour misrepresentation, we are decidedly interested—at least to the extent of giving the widest possible publicity to the truth in regard to it.

PATRICK CALHOUN

The Examiner announces, apparently on authority, that Patrick Calhoun is to resign as president of the United Railroads, and separate himself from all connection with San Francisco and its industries. It has been quietly understood for some time that Calhoun would take this course, but the definite announcement of it will bring a great sense of relief. For Patrick Calhoun has cost San Francisco very dearly. He first promoted the consolidation deal, whereby, for investing a few million dollars in San Francisco, he and his associates taxed San Francisco to pay forever interest on a fictitious capitalization of several times that sum. He afterwards imposed on San Francisco its most disastrous labor war since the teamsters' strike, and left a legacy of class bitterness which a whole generation will not efface. Then he debauched the already corrupt government of San Francisco, and when he was caught in it he plunged San Francisco into three years of social war, which has disrupted families, destroyed the spirit of co-operation of the city, and cost its industries uncounted millions. If there is in San Francisco bitterness between the business class and the labor class, and more bitterness between two factions of the business class, if San Francisco has been advertised to the entire world as corrupt and unrepentant; if thousands of well-meaning San Franciscans have been called into a pessimism which distrusts all honor, all enthusiasm and all reform; if there is much hate in San Francisco and little faith; if its moral and business tides are both at low ebb; and if its public service, corporations and its public are at continual war—San Francisco has Patrick Calhoun more than any other man to thank for these conditions. His departure is relief and good riddance.

In the condemnation of most men there is another and palliating side. Doubtless such a side exists in the case of Calhoun—of personality, of temperament and temptation. But Patrick Calhoun has forfeited, in San Francisco, the right to have this other side stated or considered. He is entitled to sympathy. He is suffering the just but pitiful penalty of his crimes. But Patrick Calhoun has preferred to stake all on the one purpose which he finally accomplished—to stay out of jail. He is out of jail and is legally entitled to stay out. But that is all. Refusing to deny his guilt or to confess it, refusing to meet the issue at all, fighting bitterly, arrogantly, and ruthlessly, he has forfeited every right but the one right to stay out of jail. He has repudiated sympathy, charity and vindication. He is out of jail and out of San Francisco. Let him stay out. And may a merciful oblivion cover, in time, the stains of wrong and hatred with which he has besmirched San Francisco.

ELECTION TOMORROW

It seems hardly worth while to discuss much further the issues of the election tomorrow, beyond reminding people that it is going to be election day, and that everybody should vote. Various estimates are made as to the probable size of the vote at tomorrow's election. Our own estimate is that it will be a large vote—lacking of the full vote only those indifferent voters who have to be dragged by the "fairs" to an ordinary election. There is no one interested to drag them out this time; and perhaps it is just as well. Otherwise, the fact that there are two amendments—women's suffrage and the recall—on both sides of which are large numbers of people intensely interested, is likely to bring out a large vote. All these controverted amendments seem likely to carry. At least, on the suffrage amendment all the reported "straw votes" are strongly favorable. And on the direct general legislation, Illinois took a test vote last year, and in so conservative a state as Illinois the proposition was approved more than four to one.

All the opposition to women's suffrage, except that of Colonel Irish, is quiet and much of it is based on motives which the objectors find it politer not to avow. For many men really believe that women are intellectually and morally unfit to vote; but naturally they hesitate about saying so. In certain moralities, of course, the superiority of women to men is so plain as to be undeniable. But the feeling is that in the more impersonal morality, in the sense of public justice, women are inferior to men. There is also the narrow notion that women are intellectual inferiors, because often they do not know the same things as their masculine critics. To know other things is assumed to be a mark of inferiority. But we are confident this view belongs only to a negligible minority. The respect of the majority of men for the qualities of women is based on too sound experience to be set aside by any such specious fictions. The women ought to be entitled to vote, and they will do good with their votes when they get them; which it seems pretty well assured they will do.

One would think that the McNamara, instead of trying to get rid of Judge Bordwell, would thank their lucky stars for having a judge so good. There is no better or juster judge in Los Angeles than Judge Bordwell, and he can be trusted to see to it that all the rights of everybody concerned will be preserved.

**BRIEF EDITORIAL
FANCIES SELECTED**

Colonel Irish on Suffrage.

The address of Colonel John P. Irish, against equal suffrage Thursday night was characteristic both of the opposition to which he is devoting himself and of the colonel's usual intelligence and speech. It was the kind of discourse that would let any sensible man to support the amendment giving women the right to vote. If there were only a week or so more of campaigning the suffragists could do no better than to send the colonel on a tour of the state. If all the voters could hear him five minutes for the amendment would be greatly increased.—Sacramento Bee.

Too Decent?

Mr. Voter, if you were to terminate your earthly career today, how would you feel about having some political orator or irresponsible loafer in a chronic "sour" doing your wife's voting for her, fishing her taxes, etc., on the theory that she is too decent to have a voice in protecting her property and your children?—Los Angeles Express.

California's People.

It is safe and beneficial to enlarge the self governing powers of the people of California. They are intelligent, moderate and judicious and can and will use the responsibilities of direct government with prudence and wisdom. Vote for the pending constitutional amendments that are designed to bring government nearer home to the people.—Long Beach Press.

Vote No!

Amendment fourteen (ballot number) is a bad amendment. It obliges municipalities to pay the value of franchises when taking over public utility corporations' property—in other words, to BUY back at a high price what the city GAVE for nothing. That means a validation of the watered stocks and bond issues of every such corporation in California, and a constitutional validation of that. There is another danger. Public utility corporations would only be subject to the express conditions of the organic law—the charter of a city. This is a dangerous enactment, since in dozens of cases it is necessary for the city council to prescribe local regulations, and the amendment gives the franchisee the right to veto the council's action. The amendment gives the municipality no more powers than it has always had and now has, and it is very dangerous. Vote No.—Stockton Mail.

Sympathy for Shannon.

State Printer Shannon is in a predicament. There is no use disguising that truth. His helplessness about having the affairs of his office investigated seems to have been warranted by the disclosures made. And yet, W. W. Shannon is not at heart a lawbreaker. He was not awake nights to think up ways to cheat the state. If he has lost sleep, it was thinking how he could stand off the sons of perdition, who were using him as a tool through which to rob the state. A kindly fellow, Shannon is, always more ready to do a favor than an injury; neither aggressively nor aggressively. He had, with ideals neither high nor low, he seems to be hair hung and breeze shaken over the bottomless pit of political ignominy, more because of what has been done to him than because of what he has, intentionally, wilfully and with malice and premeditation, done to do. The case calls for considerable sympathy without very much of mercy, and, of course, for holding final judgment, in suspension until the whole miserable state printing office business has been scrubbed and boiled, blued and rinsed out and hung out to dry. All that was warranted in saying now is that his case looks pretty tolerable unhealthy.—California Outlook.

IGNORANT OF SOUTH AMERICA.

In summing up why South America is such a poor purchaser of American goods, Judson C. Welliver, in *Munsey's* for October, says the fault is with a lack of understanding of our neighbors to the south. Writes he: "We need to understand the South Americans, in order to get them to understand us. Their history should be taught to our children. Their great national heroes, Bolivar, Sucre, San Martin, O'Higgins, Lynch—there is a pair that any American boy or girl ought to recognize as true patriots; Morazan, Artigas, Prat, Dom Pedru, and the rest of them, ought not to be unknown to us. I make bold to venture that few readers will recognize more than one or two of these names; yet in their own countries they stand for about what Washington means to us."

WROTE THESIS IN DEAD TONGUE

One of the most erudite women in this country is Dr. Jane Sherzer, president of the Women's College in Oxford, Ohio. She has studied various languages in all the renowned seats of learning in Europe and holds degrees from the Zurich, Paris and Munich universities. For three years she studied philosophy in the University of Berlin, and her thesis for the doctorate was written in old Scandinavian. A feat never before attempted, it unusual merit and great value as a literary production in an obscure language was gained highly. Dr. Sherzer has made an excellent executive for Oxford College, that has the distinction of being the oldest institution of higher education for women on this continent. She has aroused a spirit of civic betterment among her students. Last spring the freshmen and sophomores raised \$500 to beautify the campus and the adjoining park. The students employed various methods to raise that amount. They did not hesitate to blacken shoes, clean windows, mend clothes, make candy, give picnics, and hold rummage sales.—New York Press.

A WOMAN'S HEAD is level and her

judicious use of the "Frenchie" will give her a beauty with a glow that comes really from the complexion. **REV. DUNCAN WALLACE COMMENTS
ON WOMEN'S INFLUENCE IN POLITICS**

Editor Republican: Permit me to say to the voters who read the Republican, that tomorrow we are to have an election as important as any ever held in the state. Some of the amendments proposed to our state constitution are vital. California needs the initiative and referendum. Let us vote for it. I believe in the result of the judiciary. The honest, capable judge has nothing to fear from this amendment. It is the incompetent judge, whose decisions and interpretations of the law are questionable and not in accord with the testimony, who fears the recall.

Let us vote for this amendment. But it is of the suffrage amendment that I wish to principally speak. In Saturday evening's Fresno Herald, I find this editorial: "Women have voted in Denver for the past seven years; yet Denver has the rotten city government in the United States." It is not the editor of the Herald is not familiar with conditions in Denver for this statement is not founded on facts. I have it from Mr. John Moreland, a man who has lived in Denver for twenty-five years, and a man of large affairs, that conditions in Denver are much improved over those of seventeen years ago. Judge Ben Lindsay, lecturing here last winter, stated positively on the platform, that it was the women of Denver who had elected him to office and enthusiastically advocated woman suffrage.

Much has been made of the argument that to allow women to vote would ruin the home—cause women to lose their modesty and make her more of a prostitute. It was my privilege to be a

**BRYAN ASSAILS JUDGES
APPOINTED BY PRESIDENT TAFT**

LINCOLN, Neb., Oct. 8.—In an editorial in this week's Commoner, Bryan challenges President Taft to make public the written and verbal recommendations upon which he appointed Justice White to the position of Chief Justice over Justice Harlan, and the recommendations written and verbal on which he appointed the justices whom he has placed on the supreme bench. "The editorial, in part, says: At Cherryvale, Kan., the President related the challenge he issued at Detroit to Mr. Bryan to produce an example of restraint of trade that would come within the scope of the Supreme Court decisions in the Standard Oil and Tobacco Trust cases. He said that Mr. Bryan has only imitated the criticism contained in the dissenting opinion of Justice Harlan and in the report of the Senate Judiciary Committee filed by Senator Nelson three years ago. Justice Harlan and Senator Nelson pointed out that the amendment written into the law by the Supreme Court practically nullifies the criminal clause of the anti-trust laws. Relying on the authorities stated by Justice Harlan and Senator Nelson, Mr. Bryan has asserted, and

DEMOCRATS AND REPUBLICANS.

In *Munsey's* for October, Isaac F. Marcovitch publishes an interview with Woodrow Wilson. When asked to define Democracy, the Governor said: "I am two kinds of a Democrat—first, a born Democrat; second, a convinced Democrat."
"I can best define what I mean by being a Democrat," perhaps, by first telling what a Republican is. As I see him, he believes in a government for and not by the people. The Republican party looks upon itself as a trustee, and it believes in the trustee principle. This is the very essence of the protective policy. It is not taking care of the people, but it is being taken care of."
"By a convinced Democrat I mean that I dissent from the Republican party's theory of government. The people as a whole should direct and control our affairs."

Young Mothers
No young woman, in the joy of coming motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both she and her coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. It works with and for nature, and by gradually expanding all tissues, muscles and tendons, involved, and keeping the breasts in good condition, brings the woman to the crisis in splendid physical condition. The baby too is more apt to be perfect and strong where the mother has thus prepared herself for nature's supreme function. No better advice could be given a young expectant mother than that she use Mother's Friend; it is a medicine that has proven its value in thousands of cases. Mother's Friend is sold at drug stores. Write for free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

**BIBLE CLASSES HOLD
RALLY AT Y. M. C. A.**

**County Secretary Speaks on
Study of the Bible,
Before Men.**

County Secretary S. W. Douglas of
the Y. M. C. A. spoke to a large crowd
at the Bible class rally at the asso-
ciation rooms yesterday afternoon at 4
o'clock. The study of the Bible was
the subject of his address. He said that
Bible classes rendered five numbers
during the meeting. A supper was
served at 6 o'clock.
See, Douglas said that no man can
be thoroughly educated without a
knowledge of the Bible, and this should
form an incentive for reading and
studying it. If a man has no other
plan, he said, it is a plan of life for every
man is outlined in it, and he wants to
know this plan. In outlining purposes
in attacking the Bible, for serious
study he set forth four rules: To admit
its truth; submit to its teachings;
commit it to memory; transmit it to
others. He further declared the Bible
should be studied daily, and in an
humble and prayerful spirit, persev-
erently and prayerfully.
The association has eight Bible study
clubs.

**OFFICERS TAKE OLD
MAN INTO CUSTODY**

Completely worn out from a long walk
across country and from exposure, J. M.
Kelly, an aged man, was yesterday taken
into custody by the hotel keeper at Trans-
quility and later turned over to Deputies
Thurcaldsen and Minkler. Kelly was
lodged in the insane ward, although it is
not thought that the aged man is de-
mented. Probably this morning he will
be taken to the county hospital, where
he will be given medical treatment.
Kelly for some time has been around
the Miller & Lutz ranch, where he made
a living by doing what work he could.
Two weeks ago he disappeared and yester-
day he put in his appearance at Trans-
quility. He had slept on the ground all
night and was completely fatigued. Kelly
has no known relatives in this part of
the county.

**NO FATALITIES TO
FOLLOW ACCIDENT**

No fatalities will follow the automo-
bile accident which occurred on Black-
stone avenue Sunday morning about 1
o'clock. Five of the six men in the
machine were more or less bruised but
the attending physician stated last
evening that from the present indica-
tions no one was seriously injured. N.
Simonian, a tailor, was the most seri-
ously injured of the party. He is con-
fined to his bed and will be disabled
for several days. E. J. Moradian of
Hanford was the only person to es-
cape uninjured.
D. Kazarian of Fowler was driving
the automobile and in some unac-
countable manner he missed the bridge
on Blackstone and ran into a ditch. A
man was killed at this place last year.
The car was badly damaged. The
other members of the party besides
Moradian and Kazarian were: A.
Davittian, N. Simonian, a tailor; and
M. Dervishian and E. Garabedian, both
of Yreka, Tulare county.

**REAL ESTATE MEN
WILL MEET TONIGHT**

In order to ascertain the number of
Fresno real estate men who will attend
the State Realty Federation which will
meet in San Francisco on Wednesday,
Thursday and Friday of this week, a
meeting of the Fresno real estate dealers
will be held this evening at 7:30 in Ha-
ber Brothers' office on J street. A well
attended meeting of the local real estate
dealers is desired and all are invited
whether they are members of the Fresno
board or not. W. E. G. Saunders will
make a report on what he accomplished
at the Denver convention and what the
prospects are of bringing the national
real estate dealers to California in 1913.

**FRESNO GIRL WEDS
VISALIA RANCHER**

At a quiet home wedding on 19th street
yesterday afternoon, Carl Fennebaker of
Visalia and Miss Mabel Bryant of this
city were united in marriage by Rev.
Duncan Wallace. The ceremony was per-
formed at the home of Mrs. Charles
Cook, who is a sister of the bride. Only
the members of the immediate family
were present. Following the marriage
dinner was served. Fennebaker is well
known in Visalia and Mrs. Fennebaker
is a popular Fresno girl. They will make
their home on a ranch near Visalia.

**SUFFRAGETTES OPEN
HEADQUARTERS**

Suffragette headquarters will be lo-
cated in room 29 of the Republican building
and will be opened this morning. The
headquarters will be in charge of Mrs.
Frank A. McMahon, president of the
Club Woman's Franchise League, and
Miss Frances Hensley, who is secretary of
the league. They will be assisted by the
women of the club. The headquarters
will be open at all hours and any one
desiring information in regard to the
suffrage movement is requested to call
at the office. Mayor Howell has donated
his suite of rooms to the club women for
their use on Tuesday night.

**MACHINE COLLIDES
WITH STREET CAR**

An automobile driven by K. F. Mar-
lar of Reedley, collided with a Black-
stone avenue car at the corner of J
and Tulare streets yesterday afternoon
shortly after 4 o'clock. One front
wheel of the machine was badly tilted
but otherwise the car was not badly
damaged. The street car was unin-
jured. There were four other passen-
gers in the automobile but they re-
fused to give their names.

MARRIED

PENNEBAKER-BRYANT—In Fresno,
on 19th street, October 8, 1911, Carl
Pennebaker of Visalia and Mabel
Bryant of Fresno, Rev. Duncan Wallace,
officiating.

DIED

FOSTER—In Fresno, at a local san-
itarium, October 8, 1911, John Foster,
a native of Sweden, aged 74 years.
Funeral will be held this morning at
10 o'clock from Hopkins and Son's par-
lors.

CURTIS—Near Fresno, county hospital,
October 8, 1911, Winthrop Curtis, a
native of Connecticut, aged 61 years, 6
months.
Funeral notice later.

CHIN—Near Fresno, county hospital, Oc-
tober 8, 1911, Chin Chung Lung, a na-
tive of China.
Funeral notice later.

Edwin C. Burl's footwear, the winner
of gold medals, is in a class by itself.
On sale at Ewers', 1146 J street.

IN THE LONG ROOM

REBEKAHS MEET
Fresno Rebekah Lodge No. 158, held
its regular weekly meeting, Saturday
night, at which H. A. Martin gave an in-
teresting account of homes at the grand
encampment, held at Santa Cruz during
the past week. A committee, consisting of
Messrs. Edgar, Cline and O'Brien was
appointed to arrange for the regular
home school which will be held next Sat-
urday evening.

PERSONAL MENTION

Mr. and Mrs. N. Henson of St. Paul,
Minn., arrived here yesterday to spend a
two months' visit with their daughter,
Mrs. R. A. Powell.
Rev. I. W. Conley, who has been ab-
sent from his pulpit at the First Baptist
church here for some weeks, resumed
his work yesterday.

**BEHRENS SECURES
RELEASE ON BAIL**

Three friends of Robert Behrens, for-
mer manager of the local office of the
Postal Telegraph company, who is charged
with embezzling over \$100 of the com-
pany's funds, yesterday came to his re-
lease and furnished \$2000 bail in his be-
half. Justice of the Peace Smith then
issued a release for the defendant.
Friends and acquaintances of Behrens
have rallied to his support and it is un-
derstood that they will engage an attor-
ney and make a hard fight in an attempt
to get him paroled on the charge should
the case be taken to the Superior Court.
Behrens left Fresno about three weeks
ago and appeared in San Diego where he
surrendered to the authorities, saying
that he was wanted here. A warrant had
not yet been issued for his arrest but the
complaint was issued that same day by
Police Judge Briggs.

**REVIVAL TO BE HELD
DURING PRESENT WEEK**

**Open a New Meeting Place
at the North Side
Christian Church**

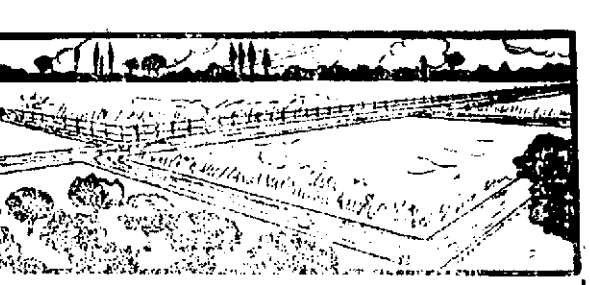

Tonight at the North Side Christian
tabernacle, the minister, Charles Lan-
ford local, will begin a series of revival
services. The large new building has
been suited with pews and lighted with
tungsten electric lights. New song
books have arrived, music will be
furnished by a large chorus choir and
special music will be rendered each
night by some of the leading singers
of Fresno.

Yesterday morning, Rev. Beal de-
livered a sermon on the subject "Why
Hold a Revival?" The speaker said in
part:
"There are people who object to a re-
vival. Among others we might men-
tion the man who objects because he
has been where Sam Jones or Dan
Shannon have held a campaign and he
is convinced in his own mind that no
harm resulting from the reaction was
greater than the good produced. An-
other class of objectors is the in-
dignant class of objectors who are too
lazy to work and resent being stirred into
action. Sinners in the church and in
the world are always frightened and
protest against the revival, or they
know that the concentrating of their
minds night after night on their
wicked condition will cause their con-
science to push them with pitiless
fury."

"It takes a sledge hammer to break
up some kinds of rock and when any
person allows indifference or worldli-
ness to encase him in its rack heart, it

does after him until the life is open
to the truth of God to deal
again to the sunshine. This revival
will aim to make us all better. We will
strive to give each Christian a new
vision of the opportunities and re-
sponsibilities that stand before him
and for every ungodly person it will
be a call from the Divine Father to
leave the world and be saved. It will
begin a study of what Jesus meant
when he taught the golden rule and
show a path to confession of our faith in
Christ as the only person who can help
us to practice what we have learned.
The farmer knows that unless he ac-
cidentally estimates his machinery,
lightens up the parts that have worked
long and all the parts he is going to
have, getting new. This meeting
and the revival it is to bring will
be the three for us to examine the
machinery of the soul and see if it is
in perfect condition. As a part
holds up nothing to the light to find
the thin places, so we find our
flaws up to the Divine Father and find
where they are weak points in our
character."
The first service will be for people
of the North Side Christian Church
and the second service will be for the
church of the North Side Christian Church
and the third service will be for the
church of the North Side Christian Church.
No service will be held on Saturday
night.
Bible Day in the P. M. school at 9:30
a. m. Sunday.
Dedication of the new building, 11
a. m. Sunday.
"Are You a Healer?" Sunday night
at 7:30.
The services begin each night at
7:30.

J. W. Campbell of Dayton, Ohio, pur-
chased a bottle of Chamberlain's Cough
Remedy for his boy who had a cold,
and before the bottle was all used
the boy's cold was gone. It is not
better than to pay a five dollar doc-
tor's bill. For sale by all dealers.

**Use An Electric
Pumping Plant**
The use of an electric pumping plant is
the most economical and best method of
irrigation. It is the only method that
does not require any labor and any-
body can operate it.
It can be used for other purposes. It will operate the
separator, grindstone or electric fan and can
be used for lighting and cooking.
**SAN JOAQUIN LIGHT
& POWER CO.**

The Land of Kerman

**45 Minutes
to
Health, Wealth & Happiness.**

The Three Magicians
Water, Climate, Soil
THE THREE RESULTS
Health, Wealth, Happiness

"The Land of Kerman" has three things that are necessary to make farming
profitable. It has the perfect climate that matures nearly all of the fruits and vege-
tables of temperate climates, and many of the fruits of the tropics. It has the
fertility of soil that provides plant food for nearly every grain, fruit and vegetable.
And it has the third requisite—plenty of water. With these three things is it any
wonder that the people in the "Land of Kerman" are healthy, happy, and in
comfortable circumstances? Oranges and lemons and figs, peaches, grapes, apricots,
and other fruits of the temperate zones mingle side by side?

**The Exhibit at the Fresno Fair
Proved What the "Land of
Kerman" Is.
It Won First Prize**

The exhibit at the Fresno Fair, which was composed of
fruits, vegetables, etc., from the "Land of Kerman" took first
prize. This shows the marvelous productivity of this land. There
were similar exhibits from many other parts of the county and it
is a mark of the wonderful excellence of the Kerman section that
it took first prize. This tells why this land is able to make a fam-
ily independent on ten acres, and why twenty acres means com-
parative wealth.

This land produces from \$50 to \$500 to the acre, according to
the crop that is raised, and is increasing in value from \$25 to \$50
an acre each year. The second section, now on the market, is
going rapidly because it has the first section to prove that it will
produce nearly everything. If you are interested, send for liter-
ature that tells all about this wonderful land. It has meant inde-
pendence for many; it will bring independence to you.

SOUSA WILL GIVE MATINEE AS WELL AS EVENING PERFORMANCE AT BARTON

John Philip Sousa, Who Will Conduct His Famous Band of Sixty at the Barton This Afternoon and Evening.

Sousa exercises great care in the selection of his soloists and the artists who will appear here with him when his band is heard at the Barton this afternoon and tonight are Miss Virginia Root, soprano, Miss Nicoline Zedler, violinist, and Mr. Herbert L. Clarke, a virtuoso on the cornet. Miss Root has a soprano voice of great range and sings in a finished and authoritative manner. Miss Zedler has spent the greater part of her youth in Germany, Stuttgart and Hamburg will unite in proclaiming her worth as an artist. Of Mr. Clarke it is not necessary to speak. He has been with Sousa a number of years and wherever heard, he has been proclaimed the greatest cornetist in the world.

Following are the two programs to be rendered:

Afternoon concert at 3:00 o'clock.

1. Fantasia—"Coppelia".....Delibes
2. Cornet Solo—"Showers of Gold".....Clarke
- MR. HERBERT L. CLARKE.
- Suite—"Peter Gunt".....Grieg

- (a) "In the Morning" (Pastorale)
- (b) "Death of Ase."
- (c) "Anitra's Dance."
- (d) "In the Hall of the Mountain King"
8. Prano Solo—"April Morn".....Batten
- MISS VIRGINIA ROOT.
- Siegfried's Death, from "Götterdämmerung".....Wagner
- INTERMISSION.
- Suite—"The Little Belles" from "The Wand of Youth".....Elgar
- (b) March—"The Fairest of the Fair".....Sousa
- Violin Solo—"Zigeunerweisen".....Sarasate
- MISS NICOLINE ZEDLER.
- Cuprice—"Folia Bergera" (new).....Fletcher

Evening concert at 8:15 o'clock.

1. Overture, Solonelle—"1312".....Tschalkowsky
- Cornet Solo—"From the Shores of the Mighty Pacific".....Clarke
- MR. HERBERT L. CLARKE.
- Character Studies—"The Dwellers in the Western World" (new)

7. (a) Prachidlam.....Fainelt
(b) March—"The Federal" (new).....Sousa

8. Violin Solo—"Souvenir of Moscow".....Wienlawski

9. Grand Tarantelle—"Napoli".....Pallien

"The Country Boy"

Henry B. Harris will present Edgar Schwen's big comedy hit, "The Country Boy," at the Barton tomorrow night. First presented at the Liberty Theater, New York, this play enjoyed a run of five months, which was followed by a succession of crowded houses at "Powers" Theater, Chicago, for two months. The company that will be seen here is an unusually strong one, and has not undergone a single change since the metropolitan engagement.

"The Country Boy" is in four acts and concerns a youth who believes his home town is not large enough to hold him. Desiring greater opportunities, he leaves home, mother, and a village sweetheart to try his luck in New York. Finally he becomes so desperate through his failure to find work that he is ready to sell it all, when he is persuaded by a fellow boarder, a newspaper man, to try again, and together they go back to the country town and start a newspaper which proves highly successful. Seats are now selling.

The Campus

Walter DeLeon will present "The Campus," his own new musical comedy of college life, at the Barton Opera House, next Thursday evening, October 12th. His co-star is the little Miss "Muggins" Davies, a newish embryo with many gifts, and she is sure to delight her audience with her charming sweetness and remarkable cleverness. These two bright stars are being presented by the Ferris Hartman Enterprises Co., who does so with the most confident hopes of their enthusiastic reception. The company which has been provided to support the two stars, is a large and capable one consisting of 50 boys and pretty dancing girls. "The Campus" is a clean and wholesome play, having no objectionable scenes. The seat sale opens this morning at 9 o'clock.

Nordica Concert

Mr. George Dudley Hall, representing the Metropolitan Musical & Lyceum Bureau of San Francisco, reached the city last evening and is registered at the Hughes Hotel. Mr. Hall is here in the interests of the engagement of Mme. Lillian Nordica and her company who are to appear at the Barton Opera House on the night of Wednesday, October eighteenth. It is some years since this famous prima donna has been heard in Fresno and doubtless a large audience will greet the diva. On Saturday next Mme. Nordica will assist President Taft in the groundbreaking exercises for the Panama-Pacific International Exposition and will sing in connection with a chorus of over five hundred voices and a combined band of two hundred and fifty

SPOTLESS ICE USED ON ALL ESPEE TRAINS

Employees Wear Rubber
Gloves and White Suits;
Use Clean Carts.

Southern Pacific officials have adopted a new sanitary method for handling ice used in drinking water on all passenger trains from Portland to El Paso. H. V. Platt, general superintendent of the company at Los Angeles, is credited with putting the idea into practical operation between Fresno and San Luis Obispo and El Paso.

At each point where trains are loaded, the ice is handled in absolutely clean carts, lined with galvanized iron or zinc, and the interior is washed twice daily with steam. The ice is handled by employees dressed in white duck suits and caps, and rubber gloves, all of which are furnished by the company. Employees are required, sufficiently in advance of arrival of trains, to prepare themselves for the handling of the ice. The ice, however, is men. Assisting Mme. Nordica is Mr. Myron W. Whitney, the eminent bass, and Mr. E. Romayne Simmons and exceptional pianist. The prices for Fresno will be on a par with those of San Francisco and lower than those charged in the majority of cities.

handed with rubber gloves, and from the time of its manufacture until the time it reaches the receptacle in the car it is protected against contamination. This new mode of handling the ice for the passenger cars of the company, tried out on the Los Angeles division, has proved so successful that it has been ordered installed on all of the lines of the Pacific system. The carts are covered with canvas at all times and are fully protected from flying particles of dirt.

MEXICAN JAILED FOR CARRYING GUN

T. Martinez, a Mexican, was arrested yesterday in Chinatown by Patrolman Pomeroy and charged with carrying a concealed weapon. Martinez was lodged in jail. The arrest of the Mexican was brought about in a peculiar manner. In pulling his handkerchief out of his pocket he accidentally pulled out a revolver and the weapon fell to the pavement. The eagle eye of the officer spied the revolver and Martinez was taken to jail.

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by all dealers.

IF YOU ARE SUFFERING from rheumatism and kidney trouble, you should take Smith Bros. K. B. R. Compound, only at Smith Bros.

Evera, 1145 J street, likes to meet people from Missouri. He has the footwear to show.

The Perfect Heater-- Cole's "Air Tight"

This is the heater that heats the room in the most efficient manner and with a minimum of fuel. It radiates the heat in a manner that warms every corner of the room. It is the most perfect heater that we have ever seen in many years of experience in selling stoves.

Hot Blast Coal Stove, Gas Heater, Heating Plants, Stove Pipe, etc.

We also have Cole's Hot Blast coal stove. It is a new adaptation of the principles of correct stove building that makes this stove the success that it has become. We also have heating plants and many different styles of stoves including gas heaters. We have stove pipe in all sizes.

ONE BIG SALE

Stockmen! Horsemen! Dairymen! You Want Good Brood Mares

The sale of the best brood stock of Percheron Brood Mares and Colts ever offered at auction in this State will take place

OCTOBER SIXTEENTH.

at the Ranch of C. P. Cooper, two miles from Gonzales, Monterey County. This section has a world-wide reputation for raising good horses, and the owner of this stock, C. P. Cooper, has a reputation second to none as a horse breeder in this section. The stock comprises 160 head of Grand Brood Mares, all young stock with fine colts by their side. Also Three Pure Bred Imported Percheron Stallions, one the Grand Champion at the State Fair last year; the other two are ton stallions. All farm implements and all stock on the ranch will be sold, as there will be no reserve. The owner has taken up extensive land interests in the famous fertile valley of Yuma, Arizona Irrigation District, which is cause for the disposal of the stock.

THE BIG HORSE SALE OF THE YEAR.

October 16th, at Gonzales. C. P. COOPER, Owner and Breeder

RHOADES & RHOADES, Auctioneers of Los Angeles.

Grand Spanish Barbecue, Geo. Schrader, Caterer of Salinas.

If You Could Invest Your Money To Earn

280% Would You Be Satisfied?

The Pacific National Fire Insurance Company now being financed in Fresno and the San Joaquin Valley, offers one of the cleanest, squarest and surest investment opportunities ever brought to your notice.

Assuming that two millions of these collections came from the San Joaquin Valley, and that the same ratio of profit applied as resulted for the entire state, then THE SAN JOAQUIN VALLEY CONTRIBUTED \$700,000.00 OF THE PROFITS that in the main went to Eastern or foreign countries, NEVER TO RETURN.

Remember that this takes place every year, and figure the stupendous cost to a section like our own where there is nothing to counter-balance the effect of such VAST SUMS GOING OUT AND NOTHING COMING BACK. \$700,000.00 is equivalent to an earning of 280 per cent upon the capital of the Pacific National Fire Insurance Company.

Don't you think that a home fire insurance company, with its headquarters in the geographical center of the San Joaquin Valley, stands the best show of any company on earth to get the cream of the fire insurance business and enable us to KEEP AT HOME THE MONEY WE ARE NOW THROWING AWAY?

Can there be any possible doubt in your mind as to the feasibility OR NECESSITY OF THIS PROPOSITION?

We do not presume to say that it will earn 280 per cent, but we ask you to read the rest of this notice and study closely the basis upon which the figures that head this advertisement are made.

Out of \$15,315,772.00 collected in Fire Insurance Premiums in the state of California during 1910, there was left from every dollar after paying all losses, commissions and expenses, 35 Cents, or a total net profit of \$5,333,188.00.

Can there be any doubt in your mind as to the value of its stock or the CERTAINTY OF THE HANDSOMEST RETURNS to you upon an investment made therein?

CAN THERE BE ANY DOUBT IN YOUR MIND as to California or this section offering today the best field for fire insurance investment there is on the face of the earth, as not only will this section alone support such an institution, but if it receives your support, will enable it to enter other states and claim its share of the business that will allow it to return to the San Joaquin Valley all that is now paid out without hope of return.

YOU WILL HAVE NO MORE OPPORTUNITIES to invest in fire insurance stock in a home company in the San Joaquin Valley. THIS IS YOUR GREAT BIG OPPORTUNITY.

A HOME COMPANY OF, FOR AND BY THE PEOPLE OF THE SAN JOAQUIN VALLEY. DON'T WAIT, but fill out and return the coupon today. We will then furnish you the names of investors and give you the fullest details in regard to the plans and purposes of the company.

California Oil News

UNIVERSAL BRINGS IN ANOTHER SHALLOW WELL

Will Not Open Until It Has a Pipe Line; Lost Hills Items.

LOST HILLS, Oct. 8.—The Universal Oil company has just brought in another well on the southeast quarter of section 26-26-21. This well is about 500 feet deep and flowed the first day, when it landed up. The well will not be cleared out until the Universal's pipe line is in place to handle it.

The Universal Oil company, on section 26-27-21, was drilled through the cement and met a heavy flow of gas. This well is being watched with interest by oil men and much speculation is being indulged in as to the outcome. It is the opinion of some that this well will be the largest producer in the field when finished.

The Universal Oil company is about to erect two rigs on the northeast quarter of section 36-26-21. These rigs are to be rushed to completion and two more are being drilled on this quarter as soon as possible. This is the land which was purchased by the Universal company from the Devil's Den Consolidated Oil company, mention of which was made last week. There is at present one well on this quarter which was drilled by the

To Unclog the Pores Remove Stiffing Skin

"Clogged pores are the cause of many complexion difficulties," according to Dr. Heman Ward. "This condition makes the skin coarse in texture. It interferes with elimination of waste matter, producing a muddy or blotchy complexion, eruptions and other defects.

"To open and cleanse the closed pores there is nothing more effective than the ordinary macerated wax, used as you would cold cream, but not rubbed in. It should be applied at night and washed off in the morning. Macerated wax, to be had at any drug store, will also remove the effects of the condition referred to. That is, it removes the undesirable complexion itself, with its disfiguring marks. Possessing a peculiar absorbent power, it flakes off the soiled skin in minute particles, but so gradually there is no irritation or inflammation. It is recommended in preference to cosmetics, as the complexion it reveals is a perfectly natural one."

JUST TRY A TEN CENT BOX OF CASCARETS

Insures you for months against a Sick Headache, Bilelessness, Constipation or a Bad Stomach.

But inside—just once—the Salts, Cathartic Pills, Castor Oil or purgative waters which merely force a passage through the bowels but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Bilelessness, coated tongue, indigestion, Sour Stomach or Constipated bowels. Cascarets belong in every household. Children just love to take them.

A Sign of Beauty is a Joy Forever.

Dr. T. Felix Bourne's Oriental Green or Magist Beautifier.

"Bourne's Oriental Green is the best beauty cream I have ever used. It is sold by all druggists and Fancy Goods Dealers in the United States, Canada and Europe. 1000 L. Street, New York, N. Y."

TO SELL OIL LAND FOR \$300 AN ACRE

BAKERSFIELD, Oct. 8.—E. L. Brown of McKittrick has agreed to sell for \$300 an acre the southeast quarter of section 26-26-21 to the Newman-Morris Oil company, if it is found in paying quantities. The Phoenix Refining company of Bakersfield has given a deed of trust for \$15,000 to the Security Trust company on Bakersfield on all its property in this city.

An amended complaint has been filed in the case of R. L. Barry and other Freeman against Charles L. Jackson, J. R. Bailey and others for possession of the southeast quarter of section 26-21-19.

DERRICK IS LOST BY UNITED OIL CO.

BAKERSFIELD, Oct. 8.—A derrick equipped on the United Oil company's property near Falloway Friday and the night of the well narrowly escaped receiving serious injuries. There were a number of strands of pipe in the derrick and the casing was being pulled when the derrick gave way under the strain. The loss is quite heavy.

BARRETT TO LEAVE MARICOPA FIELD

BAKERSFIELD, Oct. 8.—Parker Barrett, one of the owners of the famous Lakeview gusher, who was made wealthy by the big strike in that well, expects to remove to Los Angeles. Barrett has resided in Maricopa for six years. Prior to engaging in oil he was a contracting carpenter and at one time was a leader in Bakersfield labor union. Recently he returned with his family from an overland automobile trip to Kansas.

ARE SOON TO LAY UNIVERSAL PIPE

BAKERSFIELD, Oct. 8.—A Lost Hills operator just returned from that field says: "Specifications for the new pipe line pump stations to be installed by the Universal Oil company between the Lost Hills and Tidewater are about completed and it is understood that bids for the machinery will be called for shortly. The pipe, it is understood, is already ordered from the mill and the laying of the line will commence in the near future."

HEAVY SNOW FALLS IN NORTHEAST STATES

NORTH ADAMS, Mass., Oct. 8.—A considerable amount of snow has fallen in this section of Massachusetts and in Southern Vermont today. Five inches of snow on the level covers Belknap, N. H., thirteen miles northwest of here, and the downfall continues this evening.

The apple crop has been badly damaged by the snowstorm. In many places the snow is so heavy that trees have broken down.

SARANAK, N. Y., Oct. 8.—Four inches of snow covers the northern ranges of the Adirondacks today, the heaviest precipitation at this time of the year in a decade.

INVALIDS' LIVER WORTH SAVING?

Pitiful Query of Hopeless Woman Answered by Health Expert.

Prof. J. M. Munyon, the famous western health expert, in a statement says: "I have thousands of friends among people who have used my remedies as practically their only family doctor for years."

"I want to tell the people about my theories on the subject of health, which are the fruit of a lifetime devoted to healing the sick people of America. I shall send my message through the newspapers of this city day by day, to face and tell the people of Fresno some of the hopeful truths of health that I have learned."

"A well-known woman came to see me yesterday. She said: 'Doctor, I am practically a chronic invalid. I have been nothing but a burden for years to myself, to my relatives and to my friends. Tell me, doctor, is my life a benefit to the world? Is it really worth saving?'

"Her despair was pitiful, but I believe that my answer inspired hope in her breast, and I want to convey to every sick and ailing person in Fresno, every sick and ailing person in Fresno, 'Yes! I told her, 'Your life is worth saving! It should be saved for your loved ones and your friends. It should be saved for yourself! It should be saved for the world.'

"Every man and woman owes this as a duty not only to himself, to his relatives, but to the community at large. Health is the open door to success and happiness. Man has no right to allow disease to sap his vitality, or weaken his capabilities. Society demands from him one hundred cents on the dollar. If talents have been given him they must be accounted for. Comfort, success, pleasure and the highest joys can only be realized through exercising the full strength of one's mental and physical powers. The sickly person is apt to have wicky ideas, and people with wicky ideas are neither a joy to their friends, a comfort to themselves, nor a help to their fellow-being."

"If I were to write a formula for the general welfare of humanity it should be—Get well! Get well, even if it takes your last dollar. I firmly believe that the time will come when governments will pass laws compelling people to keep in good health. Such laws would lift the world out of beggary, dependency and mental and moral ruin."

"A lady asked me the other day whether I was not a crank on the subject of health. I pleaded guilty at once. As long as God spares my life I shall preach the doctrine of good health. I believe in my Remedies. I know that they will do all that I claim for them. I know that with these remedies the home a large amount of suffering can be avoided, and doctors' bills greatly reduced."

Professor Munyon has opened headquarters in Fresno in the Forsyth Building where a competent physician will give free consultation and advice to all callers between the hours of 8:30 in the morning and 8:30 in the evening, daily, except Sunday.

CORONATION SECURES NEW LIGHT OIL WELL

Said to Prove Up Great Stretch of Wildcat Territory.

BAKERSFIELD, Oct. 8.—No. 1 well of the Coronation Oil company, on section 4-11-22, three and a half miles out on the flat east of Bakersfield, is flowing large quantities of light oil by heads. The well was finished at 2,500 feet with four inch casing. A forty foot screen strainer was set at the bottom of the hole and the well has since been producing handsomely.

It is stated that the bringing in of the Coronation's well absolutely proves the largest area of wildcat territory than any well brought in since that of the Honolulu Oil company on section 10-22-24, nearly two years ago.

The Ethel D., one of Clarence J. Barry's oil companies near Maricopa, has ten producing wells averaging 10,000 barrels of oil monthly. Joseph Murphy, the superintendent, expects another good well from No. 21, which has just been cased in. Well No. 11 is pumping 400 barrels a day.

The Brookside Oil company, in the North Highway, has Well No. 2 down 3,250 feet. Well No. 3 was spudded in October 2nd, and No. 5 is producing 150 to 200 barrels a day.

The Newman-Morris Oil company, operating near McKittrick, will resume operations shortly.

The Redlands Oil company, which is putting down a test well in the 21st Hills, is down 2,900 feet. The formation, like other 21st hills wells, is blue shale.

The S. W. Oil company has spudded in Well No. 1 on the North McKittrick front.

STEPHENSON MUST JUSTIFY EACH ITEM

"Touches," "Hammer" and "Picnics" on Campaign Expense Account.

MILWAUKEE, Wis., Oct. 8.—Items such as "touches," a "hammer," and "picnics" were brought out as part of the campaign expenses of United States Senator Isaac Stephenson in the investigation of charges that he had secured his election through bribery and corruption before the senatorial committee yesterday.

The details were given by Rodney Sackett, one of the Stephenson campaign managers, in response to an announcement by Senator Heyburn, the chairman, that the total expenditure of \$107,792, would have to be explained to overcome the presumption that it had not been wisely expended.

Some of the general items given to Sackett to further explain were: General expenses for organizing state, \$44,052; Milwaukee county, \$11,600; office expenses, \$4,074; telephones, \$256; postage, \$11,600; sundry bills, \$5,882; nomination papers, \$40; one man to attend congressional caucus, \$75; trip through the state, \$30; three men, \$33; one man to another picnic, \$10; touches by two old soldiers, \$2; numerous and various touches, \$17; a hammer, \$2.

Of the total expenditure, Sackett handed \$36,082, asked to explain what was meant by the "touches" and trip through the state, the witness said he did not know as that probably was ordered paid through his office on authority of other campaign managers.

"As the responsible custodian of Senator Stephenson's fund, acknowledging that you were required by the law of Wisconsin to render an itemized account of every item of more than \$5 it would seem that you had not paid much attention to the subject," said Senator Heyburn.

The money for picnics, he said, was to cover the expenses of men sent to interest in Senator Stephenson's behalf.

After the afternoon session, the committee adjourned until Monday on account of the death of United States Circuit Judge J. V. Quarles, former United States senator.

So far the witnesses at the investigation have been reported as those favorable to Senator Stephenson. Next week witnesses who are opposed to him, including State Senator John J. Blaine, who brought the original charges in the Wisconsin legislature, are to be heard. These charges were that bribery and corruption had been employed by Senator Stephenson in the primary nomination in 1905, which led to his election in 1909.

MILLIONAIRE SUES PINKERTON AGENCY

MONTREAL, Oct. 8.—Because of the prominence of the persons involved, and the unusual, if not sensational nature of the testimony disclosed, the keenest interest has been taken in Canada in the suit for \$25,000 which David Russell, worth \$15,000,000, has been pressing all week and with vigor against the Pinkerton Detective Agency, charging that the Pinkertons were in a conspiracy to put him in an American insane asylum, and, this failing, to lodge him in a Canadian sanitarium.

According to Russell, the scheme was to get him out of the way because he had threatened to sue the Pinkerton Agency, believing that its officials had deceived him while in his employ.

In his efforts to prove this conspiracy Russell has produced evidence in which the names of many well-known Canadian railroad and financial men and American lawyers and alienists have figured.

Mr. Donald Mann, president of the Canadian Northern, has been mentioned by Russell as in some way connected with the case.

J. N. Greenhalgh, well known in Canada, is being sued by Russell for \$125,000 as the result of a land deal in Northwest Canada, and Russell swore on the stand that it was his belief that the conspiracy was conceived because of the land suit, and he suspected that Greenhalgh was behind the plot.

Barber, 1145 J street, has latest show styles out.

J. A. Walton Co., 915-917 J Street, South of Empire Theatre

Thousands of Dollars Worth of New Goods Sacrificed to Make Room for the Builders

RAIN PREDICTION FOR TODAY AND GROWERS ARE WARNED

Storm Rises in North and Moves Toward This Valley.

Bad Weather Will Greatly Complicate Getting of Early Goods.

Possible rain is predicted for today by the weather bureau. The weather man was kept busy yesterday, advising the growers to stock. Warnings were also sent out to all the sub-stations that the weather bureau is now predicting throughout the rain growing district.

To blame for all the trouble that is anticipated is a storm that broke over the northern part of the state yesterday. The storm was felt as far down as San Francisco by night, and there was rain both about the bay, and in the Sacramento valley. Further, this storm was moving south. When the last telegrams were received last evening from the San Francisco weather office, it was raining in San Francisco.

Rain today will break a very brief spell of the very sort of weather that the raisin men have been wanting. It has been for some days warm enough to do the drying goods, some real heat, but any break in the weather now, it is admitted, will make predictions that much of the crop will never be got to the packing houses, some-

BUMBLE BEE STINGS HORSE; WOMAN INJURED

Mrs. Charles Torrance is Thrown From Rig and Breaks Ankle.

The sting of a little bumble bee yesterday, was the cause of a runaway which resulted in the injury to Mrs. Charles Torrance, who resides at the corner of Fresno and Broadway avenues.

Mrs. Torrance, suffered the stinging of an ankle and the spinning of another. The accident occurred yesterday afternoon about 1 o'clock on Broadway avenue.

Mrs. Torrance was returning from church in her buggy and had stopped at a cross street to adjust a young man and woman to get out of the buggy. A bee buzzed by and alighted on the horse, stung the animal. The horse started to kick and jump and ran pell-mell down the street. Mrs. Torrance was thrown from the rig. The horse was later caught at Zapp's Park. The animal ran straight down the road and the buggy was not damaged.

Things like certainty. The crop, made very late by the first of last spring and a poor drying weather that, as a wife, has been experienced this fall. But now, the raisins are further advanced toward marketable condition and so in a state to be more easily harmed by the wet than they were during the small showers of some days back, when the total precipitation was but a trace.

In fact, raisin men in some cases believed they had their quota of bad weather and were going to get an October without rain of other factors. However, disappointed in this, there will be a greater question for them and the packer in attempts to get in early deliveries. And the packers need the early goods so badly that many people on Packers' Row have delivered every fruit in the business short on this month's shipments.

YOUNG ASTOR HAS FIVE PAIRS OF SHOES SHINED EVERY DAY

CAMBRIDGE, Mass., Oct. 8.—Harvard has among its list of notables entered with the class of 1915, Vincent Astor, son and heir of Colonel John Jacob Astor. Astor has entered the classic precincts of the university to specialize in classics and physics.

Twenty complete suits of clothing form the Astor wardrobe, with innumerable fancy vests and other clothing habiliments. The youth has ten pairs of shoes, five of which visit the shoe shiner's every day. His six trunks contain every article of dress known to those who wear purple and fine linen.

Astor is said to have an income of \$5,000, all bills, however, being settled by the head of the family.

SWINDLER ESCAPES FROM MILWAUKEE DETECTIVES

GAS IN YOUR STOMACH OFTEN COMES FROM NERVOUSNESS

Rather, from a nervous, irritable stomach, and it takes a Remedy prepared particularly and especially for stomach-aching to cure this.

Remedy's Gas-Tablets do this because they are prepared distinctly and especially for Stomach Gas, and particularly for all the bad effects coming from Gas Pressure.

That empty, gassy and gnawing feeling at the pit of your stomach will forever disappear in a few days; that anxious and nervous feeling, with heart palpitation, will vanish and you will once more be able to take a deep breath, so often prevented by gas pressing against your heart and lungs.

Your limbs, arms and fingers will feel numb and go to sleep, because Remedy's Gas-Tablets prevent gas interfering with your digestion. That intense drowsiness and sleepy feeling after dinner will soon be replaced by a desire for some form of entertainment.

Your distended stomach will reduce by inches, because gas simply cannot form after a few days' use of Remedy's Gas-Tablets.

Ask these people what they think of Remedy's Gas-Tablets?

WOMEN OF CHURCHES IN MEETING DISCUSS MISSIONS

Plan to Meet Again on Next Sunday; Plan Wide Campaign.

Data on Foreign Missions Cited to Further the Interest Here

With a fairly large attendance present and almost every church in the city represented, the second meeting of the church women of this city to further the sending of missionaries to unchristianized lands, was held yesterday afternoon at the First Methodist church.

Reports for the work so far accomplished were read and the work in general was discussed. It was decided that another meeting be held next Sunday afternoon at 2 o'clock at St. Paul's Methodist church at which every one interested in missionary work is urged to attend. Mesdames Strother and Stores will have charge of the meeting.

Following the meeting next Sunday, the committee from the various churches will start a house to house campaign and attempt to get all those not at the present time interested in the movement alive to what the church women of Fresno are doing. The city will be divided into districts and the women from each denomination will visit their church members who are not interested in the missionary work and any others who reside in that particular district, no matter whether they are church members or not.

The devotional services yesterday afternoon were led by Mrs. Stores. Mrs. H. Z. Austin followed with a very interesting talk on a conference which was held in China last year by the Chinese women. This conference was of particular interest to those present, as it showed what the missionaries to the foreign lands had been able to accomplish and had actually brought unchristianized Chinese women in an unchristianized land—Japan—and had discussed the teachings of the Bible. Mrs. Austin went into detail and told the women of what good had resulted from the conference in China.

Miss Alice Smith followed with a short talk on "Chundra Lala," a Hindu priestess, who had walked thousands of miles searching for forgiveness for a sin which she did not commit. Miss Smith told that the heathen religion was not enough and cited the incident where "Chundra Lala," believing in her religion, had walked thousands of miles to meet a missionary and to be converted to the Christian religion.

Statistics were cited which showed that only 5 per cent of the money devoted to Christianity was spent in converting the heathens. It was reported that \$2,000,000,000 was in the hands of Christian men in the United States. Committees from the following churches made a report at the meeting and told what they had accomplished during the past week: First Presbyterian church, Calvary Presbyterian church, Cumberland Presbyterian church, Baptist church, First Christian church, First Methodist church, St. Paul's Methodist church and the North Side Christian church.

Shoe fashions that lead, see them at Ewers', 1146 J street.

CHRISTIAN ENDEAVORERS OF 3 COUNTIES HOLD MEETING HERE

Madera and Kings Counties Societies Meet With the Local Endeavorers

A united meeting of the Christian Endeavor Societies of the Fresno County Union, which is composed of Madera, Kings and Fresno counties, was held yesterday afternoon and evening at the First Presbyterian church.

Both services were well attended and representatives from all of the societies of the three counties were present at the meeting. The state officers who were present were A. W. Johnson of San Francisco, state president; Tom Hammy, Jr., state field secretary; and J. E. W. Watson, state vice-president.

The afternoon services were started with a prayer which was followed by a reading of the scriptures. President Johnson in which he complimented the Fresno Endeavorers on the work that had been accomplished in this city and also touched upon the work that was to be done in the next year in preparing for the 1912 convention, which will be held here. Watson in his short talk told of the great importance of committee work and emphasized the importance of Christian work as well as that of the business or industrial world.

William P. Willmott, county president, presided at the meeting and in his address gave a short talk on the aims of the county union for the coming year. The press and devotional services were conducted by County Vice-President Hugh A. Handerson of Lemoore. Following Willmott's address was held in the church parlors.

Charles L. Seal, pastor of the North Side Christian church, in his address on "Bible Study," said that too much stress cannot be placed upon the responsibilities each young Christian has in life. He went into detail and told of what was expected of the Christian youth of today.

Tom Hammy, state field secretary, told of the last great national convention, which was held at Los Angeles on the great million dollar plot last July. Hammy was one of the delegates to that convention for the purpose of bringing the next national convention to Los Angeles. He was sent by the Los Angeles Chamber of Commerce and was successful in his mission.

Rev. W. J. Howe of Selma, said that the convention to be held in Fresno next June would without a doubt be one of the best and largest conventions ever held in the United States. At the close of the afternoon meeting, pledges were taken to help finance the convention, although the committee has almost enough money pledged at the present time.

To church auditorium was again filled to its capacity last night and several enjoyable selections by the Western Jubilee Singers were rendered. Miss Ruth M. Ford presided at the evening service.

Dr. Thomas Boyd spoke of the few words on the 1912 convention to be held in Fresno. He said that Fresno was the center of the greatest state in the Union and that consequently the greatest Christian Endeavor convention in the Union should be held here. B. O. Thomas led a ten-minute devotional service.

President Johnson in his evening address on "State Work" told of the work that was being accomplished by Christian Endeavorers in parts of the state where there were no churches. He said that the Endeavor workers reached the logging camps and mines and even on shipboard, where there were no regular devotional services. The evening services were closed by a song by Mrs. C. A. Murdock.

Yesterday afternoon Dr. Boyd's address was on "The Object of the Christian Endeavor Society is to promote an earnest Christian life among our boys and girls of high school age, and to increase their mutual acquaintance and to train them for work in the church and in every way make them more useful for the service of God."

DR. CONLEY RETURNS FROM EASTERN TRIP

Attended Conference of 18 Committeemen Representing North and South.

Rev. J. W. Conley, pastor of the First Baptist church, returned late Saturday night from the Point Comfort, Virginia, where he attended a conference of 18 committeemen representing the Baptist churches of the North and South. Dr. Conley is a member of a committee of nine appointed at the annual convention of the churches representing the North. This committee met at the Point Comfort with another committee of nine from the southern convention.

The purpose of the conference was to talk over the relationship existing between the churches of the southern churches and to avoid friction by suggesting an amicable settlement of any differences that might arise. The conference ended harmoniously, according to Dr. Conley, and adjourned till January 24th of next year, when the eighteen pastors will convene at Hot Springs, Arkansas. Dr. Conley said last night that he expected to be in attendance at the next gathering.

The local pastor represents the Pacific coast pastors as a member of the committee from the North. He announced before his sermon last night that he would tell something of his recent trip Wednesday evening at the weekly prayer meeting.

Now That the Great October Sales Are On In Full Blast

—The Big Store stands shoulder to shoulder with your wants, a step ahead of others in quality, a step behind them in price; ready in every department to supply your every need at uniformly lower prices than any other valley concern.

—The Kutner system of underbuying for big ranch department stores in Fresno, Hanford, Selma, Sanger and Madera, has its money saving advantages that no other Fresno concern can hope to give you. It's for this reason that we underbuy and undersell all others all the time and it's the reason why that this is the always busy store.

First of the Big Fall Sales Takes Place Here Monday

—At no time in the history of this big wide awake domestic department were values so unusually low as right now, and it's because you get staple items at the prices other stores pay for the same character of merchandise.

Don't Miss This Opportunity Offered Now

—This is the time that attractive money saving domestics are so much in demand. Will you buy now and save or wait and pay more?

- Curler Puffs, \$4.00—\$2.50
- \$5.00 Transformations, \$4.95.

MAX DILL MAKES HIT AS MR. HOGGENHEIMER

Comedian and Company Please Fair Sized Audience at Barton.

Catchy airs, fine gowns and elaborate scenery marked the appearance in Fresno last night of “The Rich Mr. Hoggenheimer,” with Max Dill playing the title role. A fair sized house greeted the return of Dill at the Barton, but the troubles of the distinguished and wealthy Mr. Hoggenheimer kept the audience in a state of laughter throughout.

The story of the ambition of a rich family without little, to secure an English title, not in the usual way, by securing a son-in-law, but by securing a daughter-in-law; the troubles experienced in seeking to have this ambition realized and the ultimate failure because of the failure of the young people to accept the plans laid out, were very well told.

Mr. Hoggenheimer got into several humorous positions in the working out of the theme but the manner in which he executed himself, amid comical situations, kept the audience convulsed.

Edith Whiteley, as Flora Fair, the actress, was very good in her role and she and Dill made a great hit in the song and dance “Eye and Eve.” The first encore brought forth a “Yea” and it brought down the house. The success of this led to more daring ventures and the two responded to more encores with the “Texas Tommy” and the “Turkey Trot.”

Percy Vere, distinctly English, was very cleverly acted by Alf Goulding. Although seemingly with no over abundance of gray matter, Percy Vere showed in the end that he possessed a good share of brains, especially when it came to securing finances and lifting mortgages.

The American flag came second last night, probably for the first time in its history, as far as the stage is concerned. The reason for this was the appearance of small banners carried by the chorus which spelled out the phrase “San Francisco, 1915.” Thus the 1915 fair is well thought of in Fresno was made evident by the thunderous applause that greeted this feature.

Films for sale, printed and developed in a first class manner. Baker & Colson Drug Company, Phone Main 87.

A mattress without a single tuft

SEALY Tuftless Mattress

Let us put one of the mattresses on your bed, with the agreement that we'll take it back after 60 nights' trial if you say so.
